REQUIRED ATTACHMENTS

- Site or Property Map
- Letter explaining proposed use & reasons for seeking a Special Use Permit.
- Traffic Impact Analysis (TIA) Determination Form OR Traffic Impact Analysis (TIA) Acceptance Letter signed by Public Works Department. Applicant is responsible for coordinating with Public Works prior to submitting this application. For more information, visit www.harrisonburgva.gov/traffic-impact-analysis. This requirement is waived for the following SUPs: major family day homes, reducing required parking areas, reduction in required side yard setback, wireless telecommunication facilities, wall and fences, and short-term rentals. To prevent delays in reviewing your application, please consult with Planning staff to confirm your application does not require a TIA Determination Form or TIA Acceptance Letter.

Note: If applying for a Wireless Telecommunications Facility allowed only by SUP, then also submit a wireless telecommunications facility application.

To whom it may concern,

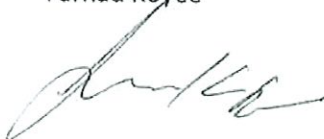

I am submitting this letter as a request for a rezoning and a special use permit. The project will require a rezoning from R-1 to R-8 with a special use permit, it will include about 10 duplexes and 8 townhouses or as the lot allowed. This project will be a tremendous service to the Harrisonburg Community as the need for housing continues to rise day after day. Attached is a proffer statement for the rezoning request.

I hereby proffer that the use and development of the subject property shall be in strict accordance with the conditions set forth in this submission. Additionally, in accordance with section 10-2-41(e) of the city's subdivision ordinance, I am requesting planning commission to allow Wren Way to end in culdesac.

Your support and help in this matter are greatly appreciated and looking forward working with the Harrisonburg City Hall members again.

Please do not hesitate to contact me if you have any questions and/or concerns

Sincerely,
Farhad Koyee

10/07/2022

Proffer Statement

In connection with the rezoning request for the property located at 937 Vine Street and identified as tax map parcel 28-O-16, I hereby proffer that the use and development of the subject property shall be in strict accordance with the conditions set forth in this submission.

1. Vehicular access to this development will be served by an entrance from Wren Way. There shall be no vehicular entrances connecting the subject site to Vine Street.
2. At the time of development, the property owner shall construct an acceptable turnaround at the end of Wren Way. The turnaround may include a cul-de-sac or another design accepted and approved by City staff. The property owner shall also dedicate the necessary land for public right-of-way to include the turnaround, and along the south side of the turnaround, the property owner shall dedicate an additional 7.5-ft. width of land as public right-of-way for future sidewalk. The property owner will not be responsible for constructing the sidewalk.
3. At the time of development, the property owner shall construct a sidewalk connection between Wren Way and the property line closest to Vine Street.

Peak Hour Trip Generation by Land Use

Row	ITE Land Use		ITE Land Use Code	Unit	Quantity	AM Peak Hour of Adjacent Street Traffic	PM Peak Hour of Adjacent Street Traffic
1	Proposed #1	215	215	Dweling units	16	8	9
2	Proposed #2						
3	Proposed #3						
4	Proposed #4						
5	Proposed #5						
6	Proposed #6						
7	Total New Trips						
8	Existing #1	Single fmaily	210	Doweling Unit	1	1	1
9	Existing #2						
10	Existing #3						
11	Existing #4						
12	Existing #5						
13	Existing #6						
14	Total Existing Trips						
15	Final Total (Total New – Total Existing)					7	8

Instructions

Determination of trip generation rates shall be in conformance with ITE guidelines.

1. Based on the intended use(s), calculate the AM Peak and PM Peak trip generation using the AM and PM Peak Hour of Adjacent Street Traffic rates from the most current version of the ITE Trip Generation Manual (rows 1-6). Attach additional sheets as necessary for more uses.
2. Sum up all of the trips generated for the new uses in the Total New Trips row (row 7).
3. If the development has any existing uses, calculate the AM Peak and PM Peak trip generations using the AM and PM Peak Hour of Adjacent Street Traffic rates from the most current version of the ITE Trip Generation Manual (rows 8-13). Attach additional sheets as necessary for more uses.
4. Sum up all of the trips generated for the existing uses in the Total Existing Trips row (row 14).
5. Subtract the total existing trips from the total new trips to get the final total number of trips generated by the development (row 15). Enter these numbers on the first page.
