ITEMS REQUIRED FOR SUBMISSION

- | | |
|--|---|
| <input checked="" type="checkbox"/> Completed application | <input checked="" type="checkbox"/> Value per square foot of cost to purchase |
| <input checked="" type="checkbox"/> Letter described proposed use. | <input checked="" type="checkbox"/> Fees paid |
| <input checked="" type="checkbox"/> Adjacent property owners | <input type="checkbox"/> Other _____ |
| <input checked="" type="checkbox"/> Survey & metes and bounds description (prepared by a surveyor, engineer, or other person duly authorized by the State) | |

Please be advised, adjoining property owners shall be expected to buy that portion of the street/alley which abuts their property before second reading and final closing! The cost shall be a fair market value determined by the Commissioner of Revenue.

April 11, 2016

To whom it may concern,

The proposed use of the portion of the 10' alley proposed for closure is to add width to TM#40-U-4, to provide dimensional requirements for a proposed re-subdivision of 40-U-4 and TM#40-U-3.

The adjoining property owners are:

TM#40-U-11 and 40-U-10:
Gregory W. Helmick
113 Third Street
Harrisonburg, VA 22802

TM#40-U-9:
Gerald E. Myers
PO Box 143
Harrisonburg, VA 22803

TM#40-U-4:
H2 Investments LLC
1500 Pleasants Drive
Harrisonburg, VA 22801

Surveyor/Engineer: James A. Patton, LS
Telephone: 540-433-1908 Email: jpatton@balzer.cc

VARIANCES

NOTE: If a variance is requested, please provide the following information:
I (we) hereby apply for a variance from Section 10-2-42(c) and 10-2-41(A) of the City of Harrisonburg Subdivision Ordinance and/or Section _____ of the City of Harrisonburg Design and Construction Standards Manual, which require(s):
All lots shall front on a public street and no lot shall embrace any portion of a street or alley.

I (we) believe a variance should be granted based on the following "unnecessary hardship" which is peculiar to the property in question (See Section 10-2-2 of the Subdivision Ordinance):
The subject parcels do not have enough road frontage along Collicello Street for the proposed lots to have road frontage and meet width requirements.

The City of Harrisonburg's preliminary plat and subdivision requirements are in the code of the City of Harrisonburg, Subdivision Ordinance Sections 10-2-1 through 10-2-86. Please read these requirements carefully.

Certification: I have read the ordinance requirements. I also certify that the information contained herein is true and accurate.

Re: Variance Request to 10-2-41(a)
632 & 634 Collicello Street
Balzer Project # 45160005

Ms. Banks,

On behalf of the property owner, Balzer and Associates, Inc. is providing this summary letter to address the required conditions outlined in City Ordinance Section 10-2-41(a):

1. The proposed pedestrian facilities will better achieve the walkable, pedestrian and bicycle-oriented environment the City desires because the sidewalks are completely separated from vehicular traffic. The sidewalk extend along the proposed building fronts, adjacent to parked vehicles, crosses the driveway, and extends as a separate sidewalk along the property boundary. This minimizes potential vehicle-pedestrian interaction. Also, this driveway is a dead-end facility only serving six residences; is only of 350-feet in length; and contains a sinuous alignment to discourage high speeds. Therefore, vehicular traffic will be extremely limited with very low speeds. Accordingly, bicycle traffic will easily be able to utilize the main driveway for access without concern for high vehicular speeds or volumes.
2. The proposed pedestrian facilities will not cause undue inefficiencies for service vehicles, nor a reduction in pedestrian safety. As described in item #1 above, the separation of the sidewalk from the vehicular lane is expected to improve pedestrian safety through reduced vehicle-pedestrian movement conflicts. Service vehicles would also be expected to have improved efficiencies due to the pedestrian facility separation.
3. The proposed pedestrian facilities would better balance the needs of pedestrians and vehicles primarily due to the maximum separation from each other. This better achieves the goals of the comprehensive plan for the pedestrian environment.
