RE: Service Learning Program Presentations

### **Summary:**

The Service Learning project teams will be presenting on the culmination of their work with city departments. In 2018 Harrisonburg High School students worked on projects involving Public Works, Police HDR, Public Transportation, Fire, Community Development and Parks and Recreation.

In addition to the projects, the students conducted visits to each of the departments beginning in the fall of 2017. The facility visits also included interaction with the staff and overview of the different services provided by the given department.

### **Background:**

The annual Service Learning Program and partnership with Harrisonburg High School was created to provide an understanding of local government concepts, social responsibility and civic awareness through a mentorship with local government personnel in the City of Harrisonburg. This program will assist students in building necessary skills to ensure preparedness for postgraduate life.

### **Key Issues:**

The presentations will showcase their work over the past semester on projects identified and prioritized by city staff.
