REQUIRED ATTACHMENTS

- Site or Property Map
- Letter explaining proposed use & reasons for seeking a Special Use Permit.
- Traffic Impact Analysis (TIA) Determination Form OR Traffic Impact Analysis (TIA) Acceptance Letter signed by Public Works Department. Applicant is responsible for coordinating with Public Works prior to submitting this application. For more information, visit www.harrisonburgva.gov/traffic-impact-analysis. This requirement is waived for the following SUPs: major family day homes, reducing required parking areas, reduction in required side yard setback, wireless telecommunication facilities, wall and fences, and short-term rentals. To prevent delays in reviewing your application, please consult with Planning staff to confirm your application does not require a TIA Determination Form or TIA Acceptance Letter.

Note: If applying for a Wireless Telecommunications Facility allowed only by SUP, then also submit a wireless telecommunications facility application.

City of Harrisonburg Officials,

HurstWenger Properties, LLC would like to maintain the existing use of the tenant occupied apartment located at 1019 West Market Street. This unit has very satisfied and respectful tenants occupying it. We understand that Harrisonburg has a limited amount of housing options that are affordable and we would like to keep this as a viable housing option.

HurstWenger Properties, LLC would also like to maintain the use of the warehousing/storage area and contractor shop space. Once again, these areas have been in this use for quite some time and are also affordable business locations for smaller business to get established. All of the existing tenants of the building are operating local businesses serving the local public and local economy. The existing tenants and how the existing tenants have been using the property have been very respectful to the neighbors, to the environment, and to the public.

HurstWenger Properties, LLC is currently not going to allow exterior material storage on the premises, in the future if this is needed, HurstWenger Properties, LLC will apply for and execute code compliant material storage screenings as needed. Dumpster screening will be installed along with fencing along the property line as needed to be code compliant.

HurstWenger Properties, LLC is willing to bring the said property up to the City regulations for special use permits and maintain viable business locations in Harrisonburg. We are also interested in naming the building and installing code compliant signage per the City of Harrisonburg.

For all three special use permits HurstWenger Properties, LLC will condition the following:

- Within six months of approval of the special use permit, the entrance shown in Exhibit A shall be closed. Parking blocks, posts and chains, or other materials approved by the City may be used to control access to the site.

Our goal is to operate a successful business location that will expand the city business map and maintain a beautiful property that borders the City of Harrisonburg Friendly City Trail.

Sincerely,

Chris Wenger

HurstWenger Properties, LLC

Peak Hour Trip Generation by Land Use

Row	ITE Land Use		ITE Land Use Code	Unit	Quantity	AM Peak Hour of Adjacent Street Traffic	PM Peak Hour of Adjacent Street Traffic
1	Proposed #1	Single Family House	210	Dwelling Unit	1	1	1
2	Proposed #2	Multifamily residential (low-rise)	220	Dwelling Unit	1	1	1
3	Proposed #3	General Retail	822	1000 sq ft	5.0	12	33
4	Proposed #4						
5	Proposed #5						
6	Proposed #6						
7	Total New Trips					14	35
8	Existing #1	General Retail	822	1000 sq ft	5.0	12	33
9	Existing #2						
10	Existing #3						
11	Existing #4						
12	Existing #5						
13	Existing #6						
14	Total Existing Trips					12	33
15	Final Total (Total New – Total Existing)					2	2

Instructions

Determination of trip generation rates shall be in conformance with ITE guidelines.

1. Based on the intended use(s), calculate the AM Peak and PM Peak trip generation using the AM and PM Peak Hour of Adjacent Street Traffic rates from the most current version of the ITE Trip Generation Manual (rows 1-6). Attach additional sheets as necessary for more uses.
2. Sum up all of the trips generated for the new uses in the Total New Trips row (row 7).
3. If the development has any existing uses, calculate the AM Peak and PM Peak trip generations using the AM and PM Peak Hour of Adjacent Street Traffic rates from the most current version of the ITE Trip Generation Manual (rows 8-13). Attach additional sheets as necessary for more uses.
4. Sum up all of the trips generated for the existing uses in the Total Existing Trips row (row 14).
5. Subtract the total existing trips from the total new trips to get the final total number of trips generated by the development (row 15). Enter these numbers on the first page.
