Why do you wish to serve on a board or commission?

I hope to both bring my skills and knowledge in sustainable systems and to the needs of the advisory committee and also learn from the knowledge base of city staff and other experts in the field of environmental performance standards. I hope to work as a team to help move the city of Harrisonburg forward with best practices of environmental performance standards from an integrated systems approach.

What relevant experience or education do you have to this board or commission?

I have a MS in Sustainable Systems design and three decades of experience in community sustainable development working on energy efficiency and carbon emissions reduction through integrated development projects in alternative transportation, built environment, and agro-ecology. I currently work in Harrisonburg for a nonprofit that focuses on sustainable development and consult for a USAID and United Nations sponsored sustainable development project in the Dominican Republic on edible forest ecosystems and carbon sequestration.

What other interests or concerns do you have regarding the community?

My longer term interests are to work as a team with the city staff and community to help foster a more healthy Harrisonburg that is moving towards energy efficiency and renewables in an integrated approach that includes built environment, transportation and agriculture

Please list any past or present community involvement e.g. City Council, Board and Commissions, Citizen Academy, etc. in Harrisonburg or elsewhere:

I have been involved in the Bicycle and Pedestrian Subcommittee, engaged with city council members and many community issues. This would be my first official appointment on a city advisory committee. I look forward to working together and learning together.

-Please return completed application to the City Manager's Office-

Applicants are encouraged to attach a resume or other supporting information that may be helpful to Council in considering their application.
