

City of Harrisonburg, Virginia Annual Comprehensive Financial Report

Fiscal Year Ended June 30, 2022

Friendly City Trail

City of Harrisonburg, Virginia

Annual Comprehensive Financial Report

For the Fiscal Year Ended June 30, 2022

This Report
Prepared by Department of Finance

Report Cover: The front cover is a portion of the new Friendly City Trail. The Friendly City Trail is a two mile shared-use path on the west side of the City that connects three schools (Harrisonburg High School, Bluestone Elementary School and Thomas Harrison Middle School), two parks (Hillandale Park and Westover Park) and several residential neighborhoods. Completed in May 2022, the shared-use path is a 10-foot wide hard surfaced trail that is anticipated to be used by walkers, joggers and bicyclists for transportation and recreation. In addition to funding from the City, financing for this \$3.3 million project was provided by the Virginia Department of Transportation and Virginia Department of Conservation and Recreation.

CITY OF HARRISONBURG
OFFICE OF THE
CITY MANAGER

ALEXANDER "ANDE" BANKS, VI, CITY MANAGER
409 SOUTH MAIN STREET, HARRISONBURG, VA 22801
OFFICE (540) 432-7701 • FAX (540) 432-7778

December 6, 2022

To the Honorable Mayor, Members of the City Council and the
Citizens of the City of Harrisonburg:

The Annual Comprehensive Financial Report of the City of Harrisonburg, Virginia (City), for the fiscal year ended June 30, 2022 is hereby submitted in accordance with Section 45 of the *City Charter* and Section 15.2-2511 of the *Code of Virginia*, 1950, as amended. The *City Charter* and the *Code of Virginia* require that the City issue annually a report on its financial position and operations, and that this report be audited by either the state auditor or an independent firm of certified public accountants in accordance with generally accepted auditing standards (GAAS). This report has been prepared by the Department of Finance to conform to the standards of financial reporting as established by the Governmental Accounting Standards Board (GASB), generally accepted accounting principles (GAAP) and the Commonwealth of Virginia Auditor of Public Accounts (APA).

This report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is accurate in all material respects and is reported in a manner that presents fairly the financial position and results of operations for the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

Brown, Edwards & Company, LLP, a firm of licensed certified public accountants, have audited the City's financial statements. The goal of the independent audit is to provide reasonable assurance that the financial statements of the City are free of material misstatements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. This examination was conducted using guidelines set forth by GAAS and the *Specifications for Audits of Counties, Cities and Towns*, issued by the APA. Based upon this audit, the independent auditor concluded that there was a reasonable basis for rendering an unmodified opinion that the City's financial statements for the fiscal year ended June 30, 2022, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements was also designed to meet the U. S. Office of Management and Budget's Uniform Guidance to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements set forth in the General Accounting Office's Government Auditing Standards require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements. Special emphasis is placed on internal controls and compliance with legal requirements involving the administration of federal awards. These reports are available in the compliance section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditor.

Profile of the City of Harrisonburg

Background. The City was established in 1780 and was named for Thomas Harrison, who donated the land for the Rockingham County Court House, which became the permanent county seat of Rockingham County in 1781. The City was incorporated in 1849 and became an independent city in 1916. It now encompasses 17.3 square miles and serves a population of approximately 52,000.

The City lies in the geographic center of the Shenandoah Valley of Virginia. The Blue Ridge Mountains on the East and the Alleghenies on the West provide protection, so the area is markedly free from climate extremes and disturbances. The Valley floor itself is at an elevation of 1,000 feet while the City's elevation is 1,329 feet. The City is equidistant from Washington, D.C. (124 miles), Richmond, Virginia (116 miles), and Roanoke, Virginia (111 miles).

The City is operated under the Council-Manager form of government. The City Council is the governing body, which formulates policies for the administration of the City. It is comprised of five members elected on an at-large basis to serve four-year terms. The City Council appoints a City Manager to serve as the City's chief administrative officer. The City Manager is responsible for implementing the policies of the City Council, directing business and administrative procedures and appointing departmental officials and certain other City employees.

Services provided. The City provides a full range of services including police and fire protection; sanitation services; construction and maintenance of streets and bridges; water and sewer services; public transportation; community development; and parks, recreational activities and cultural events.

The operation of primary and secondary education in the City is the responsibility of the Harrisonburg City School Board (School Board). The City voters elect the six members of the School Board on an at-large basis, who appoint the Superintendent of Schools. The local share of funds for operating public schools in the City is provided by an appropriation from the City's General Fund to the School Board. The School Board, however, is a separate legal entity and autonomous policy-making body in matters governing education.

The City provides court and jail facilities, as well as the services of the Sheriff, Commonwealth Attorney, and Clerk of the Circuit Court through Rockingham County (County). The City reimburses the County one-half of the net expenditures for providing these services. The City is also a member of the Middle River Regional Jail Authority.

The City provides social services through the Harrisonburg-Rockingham Social Services District (District), which is jointly governed with the County. The District is a separate legal entity and is a discretely presented component unit of the County. The City makes contributions to the District based upon its pro rata share of the population for the City and County as a whole.

The City provides emergency communications services through the Harrisonburg-Rockingham Emergency Communications Center (HRECC). The HRECC is a separate legal entity and is a joint venture of the City and the County with the City serving as the fiscal agent. Both the City and the County fund an equal share of HRECC's operations.

Electricity is provided by the Harrisonburg Electric Commission, created by ordinance of the City Council pursuant to the City Charter. The Commission is composed of five members appointed for three-year terms by the City Council and is a separate legal entity.

Budgetary Compliance and Control. The City prepares a budget in accordance with Section 60 of the *City Charter* and Section 15.2-2503 of the *Code of Virginia*, 1950, as amended. The *City Charter* requires the City Manager to submit a balanced budget to the City Council at least sixty days prior to the beginning of each fiscal year (July 1). City Council is required to convene a public hearing regarding the City Manager's proposed budget. The proposed budget, which may be modified by the City Council, is required to be adopted by a majority vote of the City Council members 30 days prior to the beginning of the ensuing fiscal year. City Council appropriates funds for expenditures and establishes tax rates sufficient to produce the revenues needed to pay such expenditures. The *City Charter* requires the annual budget to be balanced and prohibits expenditures for which moneys are not available or reasonably expected to be forthcoming in time to meet such expenditures. The *City Charter* also requires the annual budget and the annual appropriation ordinance to make a provision for a reasonable contingency fund.

Budgetary control is maintained at the department level as delineated in the appropriation ordinance. The City Manager is authorized to transfer budgeted amounts within funds other than capital projects funds. Supplemental appropriations, transfers between funds and transfers within capital projects funds require the approval of City Council. Also, supplemental appropriations which exceed one percent of the total expenditures shown in the currently adopted budget require a public hearing prior to approval by City Council. All appropriations lapse at year-end except appropriations for capital projects funds and the Community Development Block Grant (CDBG) Fund. Appropriations for capital projects funds are valid until the end of the project and CDBG fund appropriations are valid until the grant period is completed. Encumbrances outstanding at year-end are generally reappropriated in the following fiscal year. A budget-to-actual comparison is provided in this report for the general fund. This comparison is presented on page 29.

Major Initiatives

The City's staff, following specific directives of the City Council and the City Manager, has been involved in a variety of projects and activities throughout the year. These projects and activities reflect the City's commitment to ensuring that the citizens of Harrisonburg live and work in an enviable environment. The significant projects and activities are as follows:

- Appropriated a total of \$8.7 million for the realignment of University Boulevard.
- Appropriated \$4 million in the Public Transportation Fund for the purchase of eight replacement transit buses with 96 percent of the funding provided by state and federal sources.
- Appropriated \$1.5 million in the Public Transportation Fund for the replacement of the Intelligent Transportation System for the City's transit bus fleet with 96 percent of the funding provided by state and federal sources.
- Appropriated a total of \$2 million for various capital expenditures in the Water Fund. This includes \$800,000 in funding for a waterline to the South Fork of the Shenandoah River and \$1.2 million for waterline asset replacements.
- Appropriated \$1.3 million in the Stormwater Fund for the Mountain View Drive stream bank restoration projects and the VMRC extended detention pond project with approximately \$1 million provided by state sources.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

Local economy. The City is in the center of commerce and travel for the area, while the surrounding area is known for its poultry industry. The area is an educational center served by three institutions of higher learning located within or near the city with a total enrollment of approximately 25,600. James Madison University, a state-supported school, is located near the geographic center of the City and has approximately 22,000 students. Eastern Mennonite University, a private institution with approximately 2,000 students is also located in the City. Bridgewater College, located just south of the City, is also private and has an approximate enrollment of 1,600 students. State-supported Blue Ridge Community College is also located outside the city.

Sentara RMH Medical Center provides hospital and many other related healthcare services. Air, rail, passenger vehicle and bus transportation are available in the area. Interstate 81 runs North and South through the area and intersects with Interstate 64 East and West at Staunton, Virginia. Contour Airlines operates out of the Shenandoah Valley Regional Airport in Weyers Cave, Virginia and provides passenger and freight service. There are several private airfields located in the area including Bridgewater Air Park located in Bridgewater. The area is served by the Norfolk Southern Corporation railroad. There are locally based private and common carriers serving the nation with general freight and specialties. Parcel post services are available for shopping, mailing and delivery service.

Global pandemic and current economic condition. In March 2020, the World Health Organization classified a strain of novel coronavirus (COVID-19) as a global pandemic. Subsequently in January 2021, the WHO announced an additional global emergency due to a new variant of COVID-19. Due to the significant disruptions to the local economy, it is estimated that the City lost in excess of \$6 million in tax and other revenue in total from the beginning of the pandemic. As of the date of this report, the City's revenues have recovered and most all of its major revenue sources have exceeded pre-pandemic levels.

The City was allocated a total of \$23.8 million in federal American Rescue Plan Act (ARPA) Coronavirus State and Local Fiscal Recovery Funds. The City received \$11.9 million of this funding in June 2021 and \$11.9 million in June 2022. As of June 30, 2022, the City had expended approximately \$2 million of its ARPA funds.

Long-term planning. Each year the City prepares a comprehensive Capital Improvements Program (CIP). The CIP is prepared to prioritize capital improvement needs over a five-year period and to plan for the appropriate financing of these projects. Planning for capital improvements is an important process for the City to ensure that assets are acquired or constructed in time to meet specific needs and to spread costs over several fiscal years to avoid a large peak in capital expenditures during a single year.

The City is currently in the planning and design stage for the construction of a new administration facility for the Public Works Department and included \$6.3 million in cash funding for the project in its fiscal year 2023 budget. It is estimated that this project will cost approximately \$7.8 million and be funded with currently available resources. Construction is projected to be completed in July 2024.

The City is currently in the planning stage for the realignment of University Boulevard. It is estimated that this project will cost approximately \$9.5 million and is primarily being funded through the Virginia Department of Transportation and James Madison University. Currently, the projected completion date has not been determined.

The City is currently in the planning and design stages for a number of infrastructure improvement projects. These projects include South Main Street improvements, improvements to South Main Street I-81 Exit 245 intersection, Port Republic Road improvements, North Main Street sidewalks and University Boulevard improvements. Collectively, it is estimated that these projects will cost approximately \$20.2 million and are being funded through the Virginia Department of Transportation. Currently, the projected completion dates have not been determined.

The City is currently in the planning stages for the construction of a fifth fire station to be located in the northwest section of the City. Currently, the projected cost and completion date has not been determined and will be financed by federal ARPA funds.

The City is currently in the design stages for renovations to a building purchased by the City to be converted to a low-barrier, year round homelessness center. Currently, the projected cost and completion date has not been determined and will be financed by federal ARPA funds.

The City currently is implementing a long-term planning model for the replacement of its aging water and sewer infrastructure. Over the next five years, the City plans to cash fund approximately \$19.2 million in the Water Fund and \$5.3 million in the Sewer Fund for these infrastructure projects. The City currently has \$3.9 million and \$3 million in available funds in the Water and Sewer Funds, respectively. Future funding will be provided by phased in rate increases.

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2021. This was the twenty-seventh consecutive year that the City has received this prestigious award. To be awarded a Certificate of Achievement, the City must publish an easily readable and organized ACFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

We would like to express our appreciation to all members of the staff who assisted and contributed to the preparation of this report. The preparation of this report would not have been accomplished without their efficient and dedicated services. We would also like to thank the members of the City Council for their continued interest and support in planning and conducting the financial operations of the City in a responsible, timely and progressive manner.

Respectfully submitted,

/s/

FINANCIAL SECTION

This part of the City's annual comprehensive financial report contains the financial statements which include the basic financial statements, notes to financial statements and other supplementary information. This part also provides management's analysis of the City's current financial position and the outcome of its operations, as well as, the independent auditor's report.

THIS PAGE LEFT BLANK INTENTIONALLY

INDEPENDENT AUDITOR'S REPORT

To the Honorable Members of City Council
City of Harrisonburg, Virginia

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Harrisonburg, Virginia (the "City") as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and aggregate remaining fund information of the City of Harrisonburg, Virginia, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and *Specifications for Audits of Counties, Cities, and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Harrisonburg, Virginia and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Change in Accounting Principle

As described in Note 7 and 8 to the financial statements, in 2022, the City adopted new accounting guidance, *GASB Statement No. 87, Leases*. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Harrisonburg's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Harrisonburg's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about City of Harrisonburg's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information be presented to supplement the basic financial statements. Such information is the responsibility of management, and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The other supplementary information (consisting of the combining and individual non-major fund financial statements and budgetary comparison schedules, the discretely presented component unit fund financial statements and budgetary comparison schedules, and the schedules of revenues and expenditures – budget to actual), and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 6, 2022 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

CITY OF HARRISONBURG, VIRGINIA MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Harrisonburg (City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2022. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1 through 5 of this report.

Financial Highlights

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$307.1 million (net position). Of this amount, \$73.9 million (unrestricted net position) may be used to meet the City's obligations to citizens and creditors.
- The City's total net position increased by \$18.6 million.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$119.9 million, an increase of \$57.3 million in comparison with the previous year. Approximately 44.3 percent of this total amount, \$53.1 million, is unassigned.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$53.1 million, or 43.2 percent of total General Fund expenditures and other financing uses (less debt refunding transactions).
- The City's total long-term debt increased by \$83.1 million during the current fiscal year. In addition, the City implemented Governmental Accounting Standards Board Statement (GASB) No. 87, *Leases*, and has reported lease liabilities totaling \$2.2 million.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all the City's assets, liabilities and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government administration, jail and judicial administration, public safety, public works, health and welfare, education, parks and recreation, and planning and community development. The business-type activities of the City include water, sewer, public transportation, sanitation and stormwater operations.

The government-wide financial statements include not only the City itself (known as the primary government), but also the legally separate Harrisonburg City School Board (School Board) and the Harrisonburg Electric Commission (HEC) for which the City is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself. To obtain a copy of the separately

issued audited financial statements for HEC, contact the Harrisonburg Electric Commission, 89 West Bruce Street, Harrisonburg, Virginia 22801. The School Board does not issue separate financial statements. The government-wide financial statements can be found on pages 23 through 25 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, General Capital Projects Fund and School Bond Capital Projects Fund which are considered to be major funds. Data from the other three governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements in the other supplementary information part of the financial section of this report.

The basic governmental fund financial statements can be found on pages 26 through 30 of this report.

Proprietary funds. The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water, sewer, public transportation, sanitation and stormwater operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions, as well as to some external organizations. The City uses internal service funds to account for the operations of its central garage, central stores and a self-insured health insurance plan. Because these services mainly benefit governmental rather than business-type functions, they are included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The City maintains five enterprise funds and three internal service funds. The proprietary fund financial statements provide separate information for the Water Fund, Sewer Fund, Public Transportation Fund, Sanitation Fund and Stormwater Fund, which are considered to be major enterprise funds. Also, the internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements in the other supplementary information part of the financial section of this report.

The basic proprietary fund financial statements can be found on pages 31 through 34 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of

those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on page 35 through 36 of this report.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to financial statements can be found on pages 37 through 81 of this report.

Required supplementary information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligations to provide pension and postretirement healthcare benefits to its employees. This information is presented immediately following the notes to financial statements and can be found on pages 82 through 99 of this report.

Other supplementary information. This report also presents certain other supplementary information concerning the combining statements referred to earlier regarding nonmajor governmental funds, internal service funds, custodial funds and School Board individual fund financial statements. This information is presented immediately following required supplementary information. The combining and individual fund statements and schedules can be found on pages 100 through 119 of this report.

Government-wide Financial Analysis (Primary Government)

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$307.1 million at the close of the most recent fiscal year.

The largest portion of the City's net position (75.7 percent) reflects its investment in capital assets (e.g., land, buildings and infrastructure), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position, which amounts to \$73.9 million, may be used to meet the City's ongoing obligations to citizens and creditors.

The information for the previous year has not been restated for the implementation of GASB Statement No. 87.

Governmental activities. Governmental activities increased the City's net position by \$12.3 million. Key elements affecting governmental activities are as follows:

- Charges for services increased \$2.5 million (13 percent) primarily due to a one-month premium holiday provided to participants in the City's self-insured health insurance plan in the previous year.
- Property tax revenue increased \$3.7 million (6.8 percent) in the current year mainly as the result of increasing real estate assessments and an increase in the real estate tax rate.
- Local sales tax and restaurant food tax revenue increased \$1.9 million (12.3 percent) and \$3.2 million (23.9 percent), respectively, as a result of improved economic activity.
- Grants and contributions not restricted to specific programs decreased \$3.95 million due to the use of federal Coronavirus Relief Funds in the previous year.
- The payment from HEC decreased \$1.5 million.
- Expenses in the general government administration activity increased \$2.1 million (9.6 percent) primarily due to an increase in claim payments in the City's self-insured health insurance plan and bond issuance costs incurred from the Series 2021A and 2021B bond issuance.

- Expenses in the public works activity decreased \$3.3 million (18.4 percent) primarily due to the impairment of construction in progress in the previous year, combined with a decrease in street paving and pension and OPEB expenses in the current year.
- Expenses in the health and welfare activity decreased \$3 million from construction contributions that were made in the previous year to the Harrisonburg-Rockingham Community Services Board (HRCSB).
- Education activity expenses increased \$4.5 million (10.8 percent) from a \$2.3 million contribution for the Rocktown High School construction project and a general increase in operational costs, including school transportation provided by the City, as schools returned to a full year of in-person learning.
- Expenses in the community development activity decreased \$2.6 million (36.2 percent) primarily from community and business assistance payments provided by the City from its federal CARES Act funding in the previous year.
- Expenses for interest on long-term debt increased \$1.3 million (26.6 percent) from the issuance of the City's Series 2021A and 2021B bonds for the construction of Rocktown High School.

Business-type activities. Business-type activities increased the City's net position by \$6.2 million. Key elements affecting business-type activities are as follows:

- Charges for services increased \$1.2 million (4.3 percent) due to water and sewer charges for services from an increase in customer usage as revenue recovered from the impact of the COVID-19 pandemic.

- Operating grants and contributions increased \$962,541 (25.8 percent) primarily from additional federal and state revenue in the public transportation activity and the use of ARPA funds for retention payments to employees in all business-type activities.
- Capital grants and contributions decreased \$1 million primarily from intergovernmental revenue associated with the purchase of seven new transit buses in the prior year.
- Expenses in the water activity increased \$853,054 (13.4 percent) primarily from an increase in interest expense from \$24.7 million in bonds issued during the current year for the water line project to the South Fork of the Shenandoah River.

Government-wide Financial Analysis (Component Units)

School Board activities. The net position of the School Board increased \$15.3 million during the year, as compared to a \$74,298 increase in the previous year. School Board expenses decreased \$2.8 million (2.8 percent) due to a decrease in pension and OPEB expenses. The School Board's funding from the City increased \$3.7 million (11.6 percent) compared to the previous year, which included a \$2.3 million contribution for school construction purposes. State funding increased \$3.6 million while federal funding increased \$3.7 million from various CARES Act and ARPA revenue sources.

HEC activities. HEC's net position increased \$3.9 million during the year, as compared to a \$463,901 million increase in the previous year. Charges for services increased \$10.7 million (18.6 percent) during the current year due to the removal of a 2.5 percent rate decrease provided in the previous year to assist customers during the COVID-19 pandemic and two separate increases during the current year in the fuel adjustment factor, while expenses also increased \$6.9 million (11.9 percent). The increase in expenses was mostly a result of higher purchased power costs and an increase in the fuel adjustment factor.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unrestricted fund balance (the total of committed, assigned and unassigned fund balance) may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

General Fund. The General Fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$53.1 million, while total fund balance was \$65.1 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures and other financing uses. Unassigned fund balance represents 43.2 percent (38.4 percent in the prior year) of total General Fund expenditures and other financing uses (less debt refunding transactions), while total fund balance represents 53 percent (44.1 percent in the prior year) of that same amount.

Total fund balance in the General Fund increased \$12.9 million primarily from a better than anticipated increase in local tax revenue compared to budgeted projections as the City continues to recover from the COVID-19 pandemic. Local sales tax, business license tax, hotel room tax and restaurant food tax revenues collectively exceeded budget projections by \$9.5 million. The City also retained \$2.2 million in budgeted School Board operating contributions as the School Board's state and federal revenue exceed budget projections.

Total revenues increased \$4.7 million (3.7 percent). Real estate tax revenue increased \$2.5 million (6.3 percent) as the result of increasing real estate assessments and an increase in the real estate tax rate. Local sales tax revenue increased \$1.9 million (12.3 percent) exceeding budget projections by \$1.9 million while restaurant food taxes increased \$3.2 million (23.9 percent) exceeding budget projections by \$3.95 million. The operating contribution from HEC decreased \$1.5 million after a one-time COVID-19 pandemic contribution in the previous year. Federal revenue decreased \$4.8 million primarily from Coronavirus Relief Fund revenue in the previous year.

Total expenditures increased \$4.05 million (3.4 percent). Public safety expenditures increased \$1.5 million primarily due to an increase in personnel costs from retention payments made to all employees during the current year and increased capital outlay expenditures. Education expenditures increased \$3.7 million (11.6 percent) primarily from a \$2.3 million contribution for the Rocktown High School construction project. Community Development expenditures decreased \$2.4 million (38.1 percent) primarily due to community and business assistance provided by the City using CARES Act funding in the previous year. Debt service expenditures increased \$1.9 million primarily from the first half year payment on the bonds issued for the Rocktown High School construction project. Other financial factors affecting the General Fund have been included in the above discussion of the City's governmental activities.

General Capital Projects Fund. The General Capital Projects Fund has a total fund balance of \$12.9 million, of which the entire amount is either restricted or committed for various projects. Revenue, including other financing sources, totaled \$8.3 million, of which \$6.1 million was from the issuance bonds and \$1.3 million was from intergovernmental revenue. Expenditures totaled \$3.8 million, of which the most significant were for continued construction of the Friendly City Trail shared use path and design costs for street improvements related to the construction of Rocktown High School.

School Bond Capital Projects Fund. The School Bond Capital Projects Fund has a total fund balance of \$39.5 million, of which the entire amount is committed for the construction of Rocktown High School. Expenditures totaled \$47.1 for constructions costs of Rocktown High School.

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Water Fund. The net position of the Water Fund increased \$2.1 million compared to an increase of \$2 million in the previous year. Operating revenues increased \$501,952 (5.3 percent) primarily due to increased customer usage after a decrease in usage from the COVID-19 pandemic in the previous year, while total operating expenses increased \$425,572 (7.3 percent) primarily from an increase in personnel costs, bond issuance costs and depreciation expense combined with a decrease in pension and OPEB expenses.

Sewer Fund. The net position of the Sewer Fund remained increased \$1.1 million compared to being essentially unchanged in the previous year. Operating revenues increased \$749,484 (6.6 percent) primarily due to increased customer usage after a decrease in usage from the COVID-19 pandemic in the previous year, while total operating expenses decreased \$443,216 (4.1 percent) primarily due to a decrease in infrastructure maintenance costs and a decrease in pension and OPEB expenses.

Public Transportation Fund. The net position of the Public Transportation Fund increased \$316,112 compared to an increase of \$1.5 million in the previous year. Operating revenues decreased \$102,718 (5.3%) compared to the previous year, while total operating expenses increased \$340,559 (4.8 percent) from a combination of increased maintenance and fuel operating costs with a decrease in pension and OPEB expenses. In addition, nonoperating intergovernmental revenue increased \$692,877 (18.5 percent) primarily due to the increased operating costs that are reimbursed from state and federal funds.

Sanitation Fund. The net position of the Sanitation Fund increased \$1.1 million compared to an increase of \$1.2 million in the previous year. Operating revenues increased \$85,001 (2 percent) compared to the previous year, while total operating expenses increased \$380,045 (14 percent) due to a general increase in operating costs.

Stormwater Fund. The net position of the Stormwater Fund increased \$1.65 million compared to an increase of \$1.6 million in the previous year. Operating revenues remaining essentially unchanged compared to the previous year, while operating expenses decreased \$79,482 (14 percent) due to an impairment loss of construction in progress in the previous year.

General Fund Budgetary Highlights

Differences between the original and the final amended General Fund budget amounted to \$49.5 million, or 39.5 percent of the original budget, and can be briefly summarized as follows:

- \$40 million appropriated for the current refunding of previously issued bonds.
- \$3.5 million appropriated for prior year encumbrances.
- \$2.3 million appropriated for construction of Rocktown High School.
- \$1.6 million appropriated from ARPA funds for various purposes.
- \$750,000 appropriated from state and federal grants for various fire department purposes.
- \$450,000 appropriated from state and federal grants for public works purposes.
- \$870,000 appropriated for other purposes.

There were several significant variances between the final amended budget and the actual results in the General Fund, and can be briefly summarized as follows:

- Other local tax revenues were over the final amended budget by \$9.9 million. The variance was primarily the result of higher than projected local sales, business license, restaurant food and hotel room tax revenue.
- Public safety expenditures were under the final amended budget by \$3.4 million. The variance was the result of general budgetary savings in the police department. Also, the timing of various police and fire department capital outlay, including fire program expenditures in which the funds were budgeted but encumbered and reappropriated into the subsequent year.
- Public works expenditures were under the final amended budget by \$3.5 million. The variance was the result of the timing of capital outlay for paving, sidewalk replacements and various equipment expenditures. These funds were budgeted but encumbered and reappropriated into the subsequent year.
- Education expenditures were under the final amended budget by \$2.2 million as the School Board's state and federal revenue exceeded budgeted estimates.

Capital Asset and Debt Administration

Capital assets. At the end of the current fiscal year, the City's investment in capital assets for its governmental and business-type activities totaled \$437.1 million (net of accumulated depreciation/amortization). This investment in capital assets includes land, easements, buildings, improvements other than buildings, equipment, infrastructure (e.g., streets and bridges), intangible assets, right-to-use leased assets and construction in progress. The City's total investment in capital assets for the current fiscal year increased \$38.7 million.

Significant capital asset events during the current fiscal year included the following:

- Construction began on Rocktown High School increasing governmental activities' construction in progress by \$47.6 million.
- Construction was completed on the Friendly City Trail shared use path increasing governmental activities' improvements other than buildings while decreasing construction in progress by \$3.6 million.
- Construction was completed on renovations to the courthouse increasing governmental activities' buildings while decreasing construction in progress by \$1.5 million.
- Construction continued on the water line project to the South Fork of the Shenandoah River increasing business-type activities' construction in progress by \$1.9 million.
- Construction was completed on the Northend Greenway Trail stream restoration project increasing business-type activities' improvements other than buildings while decreasing construction in progress by \$1.4 million.
- Construction continued on two stream restoration projects increasing business-type activities' construction in progress by \$692,000.
- Three transit buses and a transit bus camera system were purchased increasing business-type activities' equipment by \$1.8 million.
- Implemented GASB Statement No. 87, *Leases* and reported \$2.2 million in lease assets in governmental activities.

Additional information on the City's capital assets can be found in Note 7 on pages 47 through 49 of this report.

Long-term debt. At the end of the current fiscal year, the City had total long-term debt outstanding of \$321.3 million. Of this amount, \$281.3 million comprises debt backed by the full faith and credit of the City. The City's total long-term debt increased \$83.1 million during the current fiscal year.

Significant long-term debt events during the current fiscal year included the following:

- The issuance of \$84.6 million in general obligation bonds to fund the construction of Rocktown High School in governmental activities.
- The issuance of \$24.7 million in general obligation bonds to fund the construction of a water line to the South Fork of the Shenandoah River in business-type activities.
- The issuance of \$50.2 million in general obligation bonds to current refund outstanding bond issues for governmental and business-type activities. The City was able to reduce its total debt service payments over the next 14 years on the old bonds by \$5 million.
- A decrease of \$19.4 million in pension and OPEB liabilities.
- Implemented GASB Statement No. 87, *Leases* and reported \$2.3 million in lease liabilities in governmental activities.

The City's maintained it AA+ bond rating from Standard and Poor's and its Aa2 bond rating from Moody's.

State statutes limit the amount of general obligation debt a governmental entity may incur to 10 percent of its total assessed real property valuation. The current debt limitation for the City is \$460.5 million of which \$202.1 million is available for use.

Additional information on the City's long-term debt can be found in Note 8 on pages 50 through 53 of this report.

Economic Factors and Next Year's Budgets and Rates

The approved \$145.1 million fiscal year 2023 General Fund budget included the use of \$6.3 million of unassigned fund balance. The following were factors in the preparation and final approval of the fiscal year 2023 General Fund budget.

- The unemployment rate for the City in December 2021 was 2.8 percent, which was a decrease from a rate of 4.4 percent in December 2020. This rate was higher than the 2.7 percent state rate but lower than the 3.7 percent national rate in December 2021.
- Appropriated \$6.3 million from unassigned fund balance for the construction of a new Public Works administration facility.
- Approximate 7.8 percent increase in real estate assessments anticipated to provide an additional \$2.95 million in revenue compared to fiscal year 2022.
- Increased the real estate tax rate from \$0.90 to \$0.93. This tax rate increase is anticipated to provide an additional \$1.45 million in revenue. The real estate tax rate was increased as the result increased debt service payments for the construction of Rocktown High School.
- A projected increase of \$2.3 million in personal property tax revenue primarily due to significant increases in assessed values of motor vehicles. In response to these anticipated increases in assessed values, the City decreased the tax rate on vehicles from \$3.50 to \$3.15 and also eliminated the motor vehicle license fee.
- A total increase in other local tax revenue of \$6.5 million compared to the fiscal year 2022 approved budget. Specifically, this included projected increases in local sales tax revenue of \$2.3 million, business license tax revenue of \$662,800, hotel room tax revenue of \$1.1 million and restaurant food tax revenue of \$3.5 million. These increases were offset by a decrease of \$1.3 million in the aforementioned elimination of the motor vehicle license fee.
- A \$1.4 million increase in the City's annual operating contribution to the School Board.
- The first full year debt service payment on bonds issued for the construction of Rocktown High School totaling \$5.4 million. The City had budgeted a half year debt service payment in fiscal year 2022 resulting in a General Fund increase of \$2.5 million in total debt service.
- Salary increases for both City and School Board employees.

A water rate increase of \$0.20 per one thousand gallons (approximately 5 percent) was approved to provide continued funding for the rehabilitation and replacement of aging water infrastructure.

A sewer rate increase of \$0.12 per one thousand gallons (approximately 2 percent) was approved to provide continued funding for the rehabilitation and replacement of aging sewer infrastructure.

Requests for Information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. A copy of this report in its entirety may be downloaded from the City's website at www.harrisonburgva.gov. Questions concerning any of the information in this report or requests for additional financial information should be addressed to the City of Harrisonburg, Director of Finance, 409 South Main Street, Harrisonburg, VA 22801.

CITY OF HARRISONBURG, VIRGINIA
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
At June 30, 2022

Exhibit 4

Total fund balances of governmental funds (Exhibit 3)	\$ 119,901,986
Amounts reported for governmental activities in the statement of net position (Exhibit 1) are different because:	
Certain revenues are not available to pay for current period expenditures and therefore are deferred in the funds.	7,404,056
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.	330,496,736
Certain liabilities, including bonds and related accounts, are not payable from current financial resources and therefore are not reported in the funds.	(266,259,863)
Deferred outflows of resources and deferred inflows of resources related to OPEB and pensions are applicable to future periods and therefore are not reported in the funds.	(4,702,425)
Internal service funds are used by management to charge the costs of certain activities to other funds. The assets and liabilities of certain internal service funds are included in governmental activities in the statement of net position.	<u>17,482,334</u>
Net position of governmental activities (Exhibit 1)	<u>\$ 204,322,824</u>

The accompanying notes to financial statements are an integral part of this statement.

CITY OF HARRISONBURG, VIRGINIA
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
For the Year Ended June 30, 2022

Exhibit 6

Total net change in fund balances of governmental funds (Exhibit 5)	\$ 57,338,573
Amounts reported for governmental activities in the statement of activities (Exhibit 2) are different because:	
Certain revenues reported in the statement of activities that do not provide current financial resources are not reported as revenues in governmental funds. This amount is the net change in these revenues.	(766,348)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay expenditures exceeded depreciation expense.	39,875,311
The transfer of capital assets to the School Board (component unit) affects only the statement of activities. These transfers do not have an effect on current financial resources and, therefore, are not reported in governmental funds.	(3,600,547)
The net effect of various transactions involving capital assets (i.e., sales, disposals and donations) is to decrease net position on the statement of activities.	(153,148)
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(79,406,131)
Certain expenses reported in the statement of activities that do not require the use of current financial resources are not reported as expenditures in governmental funds. This amount is the net change in these expenses.	(958,162)
Governmental funds report employer OPEB and pension contributions as expenditures. However, in the statement of activities the cost of OPEB and pension benefits earned, net of employee contributions, are reported as OPEB and pension expense. This is the amount by which employer OPEB and pension contributions exceeded OPEB and pension expense.	346,029
Internal service funds are used by management to charge the costs of certain activities to other funds. The net revenue (expense) of certain internal service funds is reported with governmental activities.	<u>(333,544)</u>
Change in net position of governmental activities (Exhibit 2)	<u>\$ 12,342,033</u>

The accompanying notes to financial statements are an integral part of this statement.

Note 1. Summary of Significant Accounting Policies

The financial statements of the City of Harrisonburg, Virginia conform to generally accepted accounting principles (GAAP) applicable to government units promulgated by the Government Accounting Standards Board (GASB). The following is a summary of the more significant policies:

A. Reporting Entity

The City of Harrisonburg (City) is a municipality governed by an elected five-member council (City Council). The accompanying financial statements present the City, the primary government, and its component units. The component units discussed in the section below are included in the City's reporting entity because of the significance of their operations, financial relationship and accountability to the City.

Discretely presented component units. The Harrisonburg City School Board (School Board) is responsible for elementary and secondary education within the City's jurisdiction. The School Board is comprised of six elected members. The City is financially accountable for the School Board in that the City Council must approve the School Board's budget, levies taxes to support the School Board's budget and issues debt on-behalf of the School Board. Additionally, the City is required by the Commonwealth of Virginia to provide annually a minimum level of financial support. The School Board does not issue separate financial statements.

The Harrisonburg Electric Commission (HEC) is responsible for the operations of the City owned electricity distribution system. HEC purchases electrical energy indirectly from Dominion Virginia Power through the Virginia Municipal Electric Association and resells it to city residents. HEC is managed by a five-member commission appointed by the City Council. HEC is financially accountable to the City in that HEC may not issue debt without the approval of City Council. Additionally, HEC is required by City Code to provide annually a minimum level of financial support to the City. To obtain a copy of the audited financial statements contact the Harrisonburg Electric Commission, 89 West Bruce Street, Harrisonburg, Virginia 22801.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Note 1. Summary of Significant Accounting Policies (continued)

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues, other than expenditure driven grant revenue, to be available if they are collected within 60 days after June 30. The City considers expenditure driven grant reimbursements as revenue in the period in which the expenditure has been incurred and all eligibility requirements have been met. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes are recorded as receivables when assessed, net of allowances for uncollectible amounts, and as revenue when the property taxes become available. Sales, restaurant food, admission and amusement, hotel and motel, consumer utility and other like taxes are recognized as receivables and revenue upon collection by the merchant or utility since the taxes are generally remitted in time to be used as a current financial resource for the payment of obligations incurred during the year. Taxes not collected within 60 days after June 30 are reflected as a deferred inflow of resources.

The City reports the following major governmental funds:

General Fund – The General Fund is the general operating fund of the City. It accounts for all financial resources of the general government, except those accounted for in other funds.

General Capital Projects Fund – This fund accounts for the financial resources to be used for the acquisition and construction of major capital facilities of the general government.

School Bond Capital Projects Fund – This fund accounts for the financial resources obtained through bond issuances on behalf of the School Board to be used for the acquisition and construction of major capital school facilities.

The City reports the following major proprietary funds:

Water Fund – This fund accounts for the activities of the City's water treatment and distribution operations.

Sewer Fund – This fund accounts for the activities of the City's sewage collection, transmission and disposal operations.

Public Transportation Fund – This fund accounts for the activities of the City's transit bus operations.

Sanitation Fund – This fund accounts for the activities of the City's refuse collection and disposal, recycling and closed landfill operations.

Stormwater Fund – This fund accounts for the activities of the City's stormwater program.

Note 1. Summary of Significant Accounting Policies (continued)

Additionally, the City reports the following fund types:

Special revenue funds account for the administration of the community development block grant, operations of the school bus system and the administration of a revolving loan program.

Internal service funds account for central garage, central stores and self-insured health insurance services provided to other departments or agencies of the City, or to other governments or agencies, on a cost reimbursement basis.

Custodial funds account for assets held by the City in the **Economic Development Authority Fund** and the **Emergency Communications Center Fund**.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are transfers and other charges between the City's enterprise funds and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's proprietary funds are charges to customers for sales and services. The Water and Sewer Funds also recognize as operating revenue connection fees that cover the cost of connecting a customer to the City's water and sewer lines. Operating expenses for the City's proprietary funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted net position are available for use, it is the City's policy to use restricted net position first, and then unrestricted net position as they are needed.

D. Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds except for the General Capital Projects Fund, which adopts a project-length budget, and the Community Development Block Grant Fund, which adopts a grant-length budget. Formal budgetary integration is employed in all funds as a management control device during the year except for the Health Insurance Fund, an internal service fund, and all fiduciary funds.

Prior to May 1, the City Manager submits to the City Council a balanced proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them. Prior to June 30, the City Council holds public hearings to obtain citizen comments, and a final budget is legally enacted through the passage of an Appropriation Ordinance. All budget data presented is the original budget and the final budget as of June 30, 2022.

The appropriated budget places legal restrictions on expenditures at the fund level. The City Manager is authorized to transfer budgeted amounts within funds as may best meet the needs and interests of the City. The City may increase total appropriations at the fund level through approval of City Council. Supplemental appropriations were

Note 1. Summary of Significant Accounting Policies (continued)

made during the year in the General Fund totaling \$49,484,029. Supplemental appropriations that exceed one percent of the budget require a public hearing prior to approval. Appropriations lapse at June 30, except for capital projects funds and the Community Development Block Grant Fund.

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to encumber that portion of the applicable appropriations, is employed as an extension of formal budgetary integration in the General and General Capital Projects Funds. Encumbrances outstanding at the end of the fiscal year are reported as either commitments or assignments of fund balance since they do not constitute expenditures or liabilities but rather the City's intent to expend funds. Encumbered amounts are generally reappropriated by City Council in the next fiscal year.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

1. Cash and cash equivalents. For the purpose of the Statement of Cash Flows, cash and cash equivalents are defined as short-term highly liquid investments that are both readily convertible to known amounts of cash and investments with original maturities of 90 days or less from the date of acquisition.

2. Investments. The City's investments are reported at fair value, which is obtained by using readily determinable quoted market valuations, except for pooled investments which are reported at amortized cost as described below. Interest earned on pooled investments held by the School Board is assigned to the General Fund.

The City is a voluntary participant in the Virginia State Local Government Investment Pool (LGIP), which is an external investment pool. The Virginia General Assembly has authorized the Treasury Board to administer the LGIP, which has delegated to the State Treasurer the administrative aspects of managing the pool. The City is also a voluntary participant in the Virginia State Non-Arbitrage Program (SNAP), which is an external investment pool. The Virginia General Assembly has authorized the Treasury Board to administer SNAP. The carrying value of the investment in these pools is determined by the pool's share price in accordance with GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The LGIP and SNAP use amortized cost to value their portfolios. There are no withdrawal limitations or restrictions in the LGIP or SNAP.

3. Interfund receivables/payables. Activity between funds, including amounts that are anticipated to be repaid within one fiscal year, are reported as "due to/from other funds." All other activity between funds that are representative of long-term lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "advances to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

4. Property taxes. Property taxes are levied as of January 1 on property values assessed annually. The last effective general real property reassessment was January 1, 2021. Property taxes attach as an enforceable lien on property as of January 1 but are not collected until the following fiscal year. Real estate taxes are due and collectible twice a year, on December 5 and June 5. Personal property taxes are due and collectible annually on December 5. The portion of the tax receivable that is not collected within 60 days after June 30 is shown as a deferred inflow of resources in the fund financial statements. A penalty of ten percent of the tax is assessed after the applicable payment date. Interest at an annual rate of ten percent is charged on delinquent real estate property tax accounts beginning January 1 and July 1. Interest at an annual rate of four percent is charged on delinquent personal property tax accounts beginning January 1.

The City calculates its allowance for uncollectible delinquent property tax accounts using historical collection data and specific account analysis. The allowance at June 30, 2022 amounted to \$960,971.

Note 1. Summary of Significant Accounting Policies (continued)

5. Inventory and prepaid items. Inventories are valued at average cost. Inventory consists of expendable supplies held for consumption and is accounted for using the consumption method. The costs are recorded as expenditures or expenses at the time individual inventory items are used or issued. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items using the consumption method.

6. Restricted assets. The City has certain assets presented on the statement of net position or balance sheet as restricted for specific purposes. These restrictions limit the use of these funds and typically represent bond construction accounts or debt service reserve requirements.

7. Capital assets. Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. In general, the City defines capital assets as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of two years. Infrastructure, water/sewer lines and certain other improvements have a capitalization threshold that ranges from \$50,000 to \$100,000. All purchased capital assets are valued at historical cost or estimated historical cost. Donated capital assets are valued at their estimated acquisition price at the date of donation. Major outlays for capital assets and improvements are capitalized as projects are constructed. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Unless otherwise noted, depreciation and amortization for capital assets is computed over the following useful lives using the straight-line method.

Buildings	40 years
Improvements other than buildings	10-50 years
Equipment	2-30 years
Intangibles	3-30 years
Infrastructure	20-40 years
Leased right-to-use assets	Shorter of the lease term or useful life of the underlying asset

8. School Board capital assets. Under current legislation enacted by the Commonwealth of Virginia, local governments have a "tenancy in common" with the School Board whenever the locality incurs "on-behalf" debt for school property. In order to match the capital asset with the related debt, the legislation permits the City to report the portion of the school property related to the outstanding financial obligation in the primary government. As principal is repaid, capital assets equal to the amount of principal debt reduction will be removed from the primary government's financial statements and reported in the School Board's financial statements. The School Board retains authority and responsibility over the operation and control of the property. The City transferred \$3,600,547 in net capital assets to the School Board during the current fiscal year on the government-wide statement of activities.

9. Unearned revenue. Unearned revenue is recorded when asset recognition criteria have been met, but revenue recognition criteria have not been met.

10. Compensated absences. It is the City's policy to permit employees to accumulate earned but not used vacation, paid time off and sick pay benefits. The City pays a benefit for accumulated sick leave upon an employee's separation from service to the extent the employee meets certain criteria. Vacation, paid time off and sick pay are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured as a result of employee resignations or retirements.

Note 1. Summary of Significant Accounting Policies (continued)

11. Long-term obligations. In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. Bond premiums and discounts reported as other financing sources and uses. The face amount of debt issued is reported as other financing sources. Bond issuance costs are expended or expensed when incurred in both the fund and government-wide financial statements. The City uses the stated interest rate in lease agreements or its estimated incremental borrowing rate if not stated in the agreement as the discount rate for leases.

12. Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position of pension plans, and the additions to/deductions from the pension plans' net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

13. Other postemployment benefits (OPEB) - VRS programs. For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position of the VRS, and the additions to/deductions from the VRS OPEB's net fiduciary position have been determined on the same basis as they were reported by the VRS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

14. Deferred outflows/inflows of resources. In addition to assets, the financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net assets that applies to future periods and will not be recognized as an outflow of resources (expense) until that time. The City has several items in this reporting category. One item is the deferred charge on debt refundings reported in the government-wide and proprietary funds statement of net position. A deferred charge on a debt refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second item consists of contributions subsequent to the measurement date for OPEB and pensions. These will be recognized as reductions to the net OPEB and pension liabilities in the subsequent fiscal year. The third consists of various deferred outflows related to OPEB and pensions. These outflows will generally be recognized in OPEB and pension expense over a closed five-year period or over the average expected remaining service lives of all employees determined as of the beginning of the measurement period.

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net assets that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time. The City has several items in this reporting category. The first item, unavailable revenue, is reported only in the governmental funds balance sheet. This item represents receivables not collected within 60 days after June 30 and are deferred and recognized as an inflow of resources in the period that the amounts become available. The second item, unearned property tax revenue, is reported on both the governmental funds balance sheet and on the government-wide statement of net position for governmental activities. This item represents property taxes levied on January 1 that are used to fund the subsequent fiscal year. The third consists of various deferred inflows related to OPEB and pensions. These inflows will generally be recognized in OPEB and pension expense over a closed five-year period or over the average expected remaining service lives of all employees determined as of the beginning of the measurement period.

Note 1. Summary of Significant Accounting Policies (continued)

15. Fund balance. In the fund financial statements, the City may report certain fund balance amounts as non-spendable, restricted, committed, assigned or unassigned. *Nonspendable fund balance* consists of amounts that cannot be spent because they are either not in spendable form such as inventories or prepaid items or amounts that are legally or contractually required to be maintained intact. *Restricted fund balance* is a constraint on fund balance that is externally imposed such as by creditors or grantors or imposed by law or enabling legislation for a specific purpose. *Committed fund balance* is a constraint imposed by formal action of City Council, as the highest level of decision making authority, for a specific purpose by amending the annual appropriation ordinance and may only be modified or rescinded by formal action of City Council. *Assigned fund balance* is a constraint imposed at a lower level of decision making authority for a specific purpose and only reflects the City's intent to expend funds for a specific purpose. Assigned fund balance also includes encumbrances reappropriated in the subsequent fiscal year by City Council and amounts used to balance the subsequent year's budget. There has been no formal policy established for any official to assign fund balance for specific purposes. *Unassigned fund balance* consists of amounts not assigned to other funds and that has not been restricted, committed or assigned for specific purposes within the same fund. The General Fund is the only fund that reports a positive unassigned fund balance.

The City considers restricted fund balance to be spent first when an expenditure is incurred for purposes for which both restricted and unrestricted amounts are available. When unrestricted amounts are available for use, the City will first use committed, then assigned and finally unassigned fund balance when an expenditure is incurred.

The City's formally adopted General Fund minimum fund balance policy requires unassigned fund balance to be equal to no less than 14 percent of the total General Fund budget at the end of each fiscal year plus an additional four percent for liquidity purposes resulting in a total target amount of 18 percent of the General Fund budget.

16. Use of estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2. Reconciliation of Government-wide and Fund Financial Statements

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position

A reconciliation between the total fund balances as reported in the governmental fund balance sheet and the net position of governmental activities as reported in the government-wide statement of net position is provided on Exhibit 4. One element of that reconciliation explains that "Certain liabilities, including bonds and related accounts, are not payable from current financial resources and therefore are not reported in the funds." The details of this difference are as follows:

Bonds payable	\$ (213,260,000)
Bond issue premiums/discounts (net)	(21,005,954)
Deferred charge for bond refunding	1,600,367
Leases	(2,269,322)
Middle River Regional Jail agreement	(3,093,669)
Compensated absences (not including internal service funds)	(3,624,527)
Net OPEB liability (not including internal service funds)	(10,324,384)
Net pension liability (not including internal service funds)	(10,666,838)
Accrued interest	<u>(3,615,536)</u>
Net adjustment	\$ <u>(266,259,863)</u>

Note 2. Reconciliation of Government-wide and Fund Financial Statements (continued)

Another element of that reconciliation states that “Deferred outflows of resources and deferred inflows of resources related to OPEB and pensions are applicable to future periods and therefore are not reported in the funds.” The details of this difference are as follows:

Deferred OPEB outflows (not including internal service funds)	\$ 1,689,913
Deferred pension outflows (not including internal service funds)	8,015,139
Deferred OPEB inflows (not including internal service funds)	(1,800,317)
Deferred pension inflows (not including internal service funds)	<u>(12,607,160)</u>
Net adjustment	\$ <u>(4,702,425)</u>

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures and changes in fund balances and the government-wide statement of activities

A reconciliation between the total net changes as reported in the fund balance on the governmental fund statement of revenues, expenditures and changes in fund balances and changes in net position of governmental activities as reported in the government-wide statement of activities is provided on Exhibit 6. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this difference are as follows:

Capital outlay	\$ 52,227,585
Depreciation expense (not including internal service funds)	<u>(12,352,274)</u>
Net adjustment	\$ <u>39,875,311</u>

Another element of that reconciliation states that “The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.” The details of this difference are as follows:

Long-term debt issued or incurred	\$ (118,209,547)
Premium on long-term debt issued	(14,295,403)
Payment for current bond refunding	39,865,944
Principal payments	11,311,379
Payment on Middle River Regional Jail agreement	987,732
Amortization of bond premiums/discounts (net)	1,327,398
Amortization of deferred bond refunding charges	(174,539)
Interest expense included in bond refunding	<u>(219,095)</u>
Net adjustment	\$ <u>(79,406,131)</u>

Another element of that reconciliation states that “Certain expenses reported in the statement of activities that do not require the use of current financial resources are not reported as expenditures in governmental funds.” The details of this difference are as follows:

Compensated absences (not including internal service funds)	\$ 139,607
Accrued interest	<u>(1,097,769)</u>
Net adjustment	\$ <u>(958,162)</u>

Note 2. Reconciliation of Government-wide and Fund Financial Statements (continued)

Another element of that reconciliation states that “Governmental funds report employer OPEB and pension contributions as expenditures. However, in the statement of activities the cost of OPEB and pension benefits earned, net of employee contributions, are reported as OPEB and pension expense.” The details of this difference are as follows:

Employer OPEB contributions (not including internal service funds)	\$ 559,997
Employer pension contributions (not including internal service funds)	2,736,022
OPEB expense (not including internal service funds)	(1,188,366)
Pension expense (not including internal service funds)	<u>(1,761,624)</u>
Net adjustment	<u>\$ 346,029</u>

Note 3. Deposits and Investments

Deposits. The entire bank balances of the City and its component units were covered by the Federal Depository Insurance Corporation (FDIC) or collateralized in accordance with the Virginia Security for Public Deposits Act (Act). Under the Act, banks and savings institutions holding public deposits in excess of the amounts insured by FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial institutions may choose between two collateralization methodologies, and depending upon that choice, will pledge collateral that ranges in amounts from 50 percent to 130 percent of excess deposits. Accordingly, all deposits are considered insured or fully collateralized. The State Treasury Board is responsible for monitoring compliance with the collateralization and reporting requirements of the Act and notifying local governments of compliance by financial institutions.

Investments. *Interest rate risk.* In accordance with the City’s investment policy, the City manages its exposure to declines in fair values by investing only in securities maturing in three years or less from the time of purchase. As of June 30, 2022, there were no securities subject to interest rate risk.

Credit risk. Statutes authorize the City and its component units to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, “prime quality” commercial paper and certain corporate notes, bankers acceptances, repurchase agreements, the LGIP and SNAP. The City’s investment policy does not further limit these investment choices. As of June 30, 2022, all City investments in external investment pools and money market funds were rated AAAM by Standard & Poor’s.

The following is a summary of deposit and investment balances at June 30, 2022.

	Primary Government	Component Units		Total
		School Board	HEC	
Investments:				
Local Government Investment Pool (LGIP)	\$ 123,945,597	\$ 18,046,177	\$ 500,000	\$ 142,491,774
State Non-Arbitrage Pool (SNAP)	72,040,920	-	-	72,040,920
Certificates of Deposit	-	-	5,500,000	5,500,000
Money Market Account	-	-	4,500,000	4,500,000
Deposits	<u>23,348,765</u>	<u>4,150,860</u>	<u>28,359,190</u>	<u>55,858,815</u>
Total deposits and investments	<u>\$ 219,335,282</u>	<u>\$ 22,197,037</u>	<u>\$ 38,859,190</u>	<u>\$ 280,391,509</u>

Note 4. Restricted Assets

The City has certain assets presented on the government-wide statement of net position, the governmental funds balance sheet and the proprietary funds statement of net position as restricted for specific purposes. Restricted assets for governmental and business-type activities in the amounts of \$50,217,819 and \$21,823,101, respectively, represent unspent bond proceeds.

Note 5. Receivables/Due from Other Governments

The following is a summary of receivables at June 30, 2022.

	Primary Government			Component Units	
	Governmental Activities	Business-type Activities	Total	School Board	HEC
Receivables:					
Property taxes receivable	\$ 67,347,461	\$ 3,673,965	\$ 71,021,426	\$ -	\$ -
Other taxes receivable	2,056,915	-	2,056,915	-	-
Accounts receivable	8,977	-	8,977	-	8,282,603
Interest receivable	2,765	-	2,765	-	-
Other receivables	150,182	4,420	154,602	22,257	-
Allowance for uncollectibles	(960,971)	(135,508)	(1,096,479)	-	-
Totals	\$ 68,605,329	\$ 3,542,877	\$ 72,148,206	\$ 22,257	\$ 8,282,603
Due from other governments:					
Commonwealth of Virginia	\$ 3,574,660	\$ 1,931,324	\$ 5,505,984	\$ 1,424,098	\$ -
Federal Government	188,859	810,270	999,129	2,112,947	-
Totals	\$ 3,763,519	\$ 2,741,594	\$ 6,505,113	\$ 3,537,045	\$ -

Note 6. Loans Receivable

The following is a summary of loans receivable at June 30, 2022.

Borrowing Entity/Loan Number	Loan Date	Term (in years)	Interest Rate	Balance	Current Portion
HRHA**	September 21, 2021	7.75	5.00%	\$ 2,610,000	\$ 270,000
HRCSB*	August 14, 2019	14	2.30%	1,478,333	91,667
HRHA**	June 26, 2014	18	4.12%	1,920,000	140,000
Massanutten Regional Library	May 15, 2000	n/a	0.0%	296,039	-
Total General Fund				6,304,372	501,667
2022-01	March 21, 2022	5	4.75%	20,862	3,933
2021-01	March 26, 2021	4	4.75%	18,191	6,143
2020-01	November 27, 2019	4	4.75%	10,995	6,493
2019-04	May 3, 2019	4	4.75%	6,230	5,319
2019-03	May 3, 2019	5	4.75%	9,714	4,359
2019-01	August 22, 2018	4	4.75%	1,699	1,699
Total Business Loan Program Fund				67,691	27,946
Total Governmental Activities				\$ 6,372,063	\$ 529,613

*Harrisonburg-Rockingham Community Services Board **Harrisonburg Redevelopment and Housing Authority

Note 7. Capital Assets

The City implemented GASB Statement No. 87, *Leases*, and restated beginning balances as applicable.

Primary Government

The following is a summary of the changes in capital assets of the governmental activities for fiscal year 2022.

	Balance June 30, 2021	Additions	Reductions	Balance June 30, 2022
Capital assets, not being depreciated:				
Land	\$ 58,435,764	\$ -	\$ -	\$ 58,435,764
Easements	1,777,196	-	-	1,777,196
Construction in progress	<u>16,272,611</u>	<u>50,527,050</u>	<u>(6,024,097)</u>	<u>60,775,564</u>
Capital assets, not being depreciated	<u>\$ 76,485,571</u>	<u>\$ 50,527,050</u>	<u>\$ (6,024,097)</u>	<u>\$ 120,988,524</u>
Capital assets, being depreciated:				
Buildings	\$ 142,226,937	\$ 1,639,778	\$ (5,190,000)	\$ 138,676,715
Improvements other than buildings	22,291,644	3,845,431	-	26,137,075
Equipment	41,910,579	1,317,386	(852,700)	42,375,265
Equipment - Leased	2,244,494	164,547	-	2,409,041
Intangibles	12,239,505	-	(6,897)	12,232,608
Infrastructure	<u>188,387,641</u>	<u>622,350</u>	<u>-</u>	<u>189,009,991</u>
Capital assets, being depreciated	<u>409,300,800</u>	<u>7,589,492</u>	<u>(6,049,597)</u>	<u>410,840,695</u>
Less accumulated depreciation:				
Buildings	(43,322,617)	(3,569,426)	1,589,453	(45,302,590)
Improvements other than buildings	(10,104,829)	(943,677)	-	(11,048,506)
Equipment	(27,258,976)	(2,535,621)	852,700	(28,941,897)
Equipment - Leased	-	(163,749)	-	(163,749)
Intangibles	(3,405,806)	(443,604)	6,897	(3,842,513)
Infrastructure	<u>(101,503,988)</u>	<u>(4,896,586)</u>	<u>-</u>	<u>(106,400,574)</u>
Accumulated depreciation	<u>(185,596,216)</u>	<u>(12,552,663)</u>	<u>2,449,050</u>	<u>(195,699,829)</u>
Capital assets, being depreciated (net)	<u>\$ 223,704,584</u>	<u>\$ (4,963,171)</u>	<u>\$ (3,600,547)</u>	<u>\$ 215,140,866</u>

Depreciation and amortization expense was charged to function/programs of governmental activities as follows:

General government administration	\$ 236,025
Jail and judicial administration	804,095
Public safety	2,017,237
Public works	5,998,039
Health and welfare	21,865
Education	2,224,843
Parks, recreation and culture	962,371
Planning and community development	87,799
Internal service funds (allocated to various functions)	<u>200,389</u>
Total governmental activities depreciation and amortization expense	<u>\$ 12,552,663</u>

Note 7. Capital Assets (continued)

The following is a summary of the changes in capital assets of the business-type activities for fiscal year 2022.

	Balance June 30, 2021	Additions	Reductions	Balance June 30, 2022
Capital assets, not being depreciated:				
Land	\$ 2,690,491	\$ -	\$ -	\$ 2,690,491
Easements	462,693	21,252	-	483,945
Construction in progress	29,637,335	4,386,675	(3,203,459)	30,820,551
Capital assets, not being depreciated	<u>\$ 32,790,519</u>	<u>\$ 4,407,927</u>	<u>\$ (3,203,459)</u>	<u>\$ 33,994,987</u>
Capital assets, being depreciated:				
Buildings	\$ 19,173,195	\$ -	\$ -	\$ 19,173,195
Improvements other than buildings	21,297,405	1,958,416	(92,473)	23,163,348
Equipment	30,485,798	2,018,107	(2,982,378)	29,521,527
Intangibles	1,072,990	655,221	-	1,728,211
Infrastructure	86,442,066	1,932,425	-	88,374,491
Capital assets, being depreciated	<u>158,471,454</u>	<u>6,564,169</u>	<u>(3,074,851)</u>	<u>161,960,772</u>
Less accumulated depreciation:				
Buildings	(6,133,719)	(444,350)	-	(6,578,069)
Improvements other than buildings	(10,002,566)	(594,708)	92,473	(10,504,801)
Equipment	(21,283,068)	(2,072,492)	2,982,378	(20,373,182)
Intangibles	(558,756)	(118,476)	-	(677,232)
Infrastructure	(55,122,162)	(1,895,329)	118,489	(56,899,002)
Accumulated depreciation	<u>(93,100,271)</u>	<u>(5,125,355)</u>	<u>3,193,340</u>	<u>(95,032,286)</u>
Capital assets, being depreciated (net)	<u>\$ 65,371,183</u>	<u>\$ 1,438,814</u>	<u>\$ 118,489</u>	<u>\$ 66,928,486</u>

The above total for additions to accumulated depreciation does not agree with the total depreciation by function/programs of business-type activities shown below by \$67,016. This difference represents accumulated depreciation on capital assets transferred from governmental activities.

Depreciation expense was charged to function/programs of business-type activities as follows:

Water	\$ 1,863,041
Sewer	1,100,412
Public transportation	1,605,455
Sanitation	279,762
Stormwater	<u>209,669</u>
Total business-type activities depreciation expense	<u>\$ 5,058,339</u>

Note 7. Capital Assets (continued)

The following is a summary of the changes in capital assets of the City's component units for fiscal year 2022.

Component Unit – School Board

	Balance June 30, 2021	Additions	Reductions	Balance June 30, 2022
Capital assets, not being depreciated:				
Land	\$ 6,294,184	\$ -	\$ -	\$ 6,294,184
Construction in progress	-	224,960	-	224,960

Note 8. Long-term Liabilities (continued)

Long-term liabilities for governmental activities are generally liquidated by the General Fund. The Internal Service Funds are consolidated into the governmental activities in the government-wide financial statements. Accordingly, long-term liabilities for these funds are included as part of the above totals. At June 30, 2022, \$105,498, \$216,690 and \$371,949 of compensated absences, net OPEB liability and net pension liability, respectively, are included in the above amounts for these internal service funds.

The following is a summary of the changes to the long-term liabilities of the business-type activities for fiscal year 2022.

	Balance June 30, 2021	Additions	Reductions	Balance June 30, 2022	Due Within One Year
Bonds payable:					
General obligation bonds:					
Public offerings	\$ 14,011,958	\$ 41,395,000	\$ (13,330,358)	\$ 42,076,600	\$ 2,687,867

Leases

The City, as a lessee, has entered into lease agreements involving the use of a fiber network and golf carts. As of June 30, 2022, the City's lease liability in governmental activities for these payments totals \$2,269,322. The City has included in its governmental activities' capital assets leased equipment in the amount of \$2,409,041 (\$163,749 in accumulated amortization).

Additional information pertaining to the Primary Government's long-term debt:

The City is subject to a legal debt margin requirement based on the Constitution of Virginia. Under the requirement, the City's bonds or other interest-bearing obligations shall not exceed ten percent of its total taxable assessed real property valuation. As of June 30, 2022, the debt limitation for the City is \$460.5 million of which \$202.1 million is available for use.

In June 2014, the City issued \$42.7 million in general obligation refunding bonds, of which \$2.7 million was issued on behalf of and loaned to the Harrisonburg Redevelopment and Housing Authority (Authority) to advance refund a previous bond issue that was originally issued for the purpose of renovating public housing units owned by the Authority. The Authority has agreed to reimburse the City for its share of the principal and interest payments as the debt service payments come due. The current fiscal year reimbursement for debt service payments associated with the bonds totaled \$216,225. As of June 30, 2022, the outstanding balance of the loan is \$1,920,000.

In August 2019, the City issued \$4.95 million in general obligation bonds, of which \$1.65 million was issued on behalf of and loaned to the Harrisonburg-Rockingham Community Services Board (Board) for the purpose of constructing a new facility. The Board has agreed to reimburse the City for its share of the principal and interest payments as the debt service payments come due. The current fiscal year reimbursement for debt service payments associated with the bonds totaled \$163,228. As of June 30, 2022, the outstanding balance of the loan is \$1,478,333.

In September 2021, the City issued \$157 million in general obligation public improvement and refunding bonds, of which \$2.6 million was issued on behalf of and loaned to the Harrisonburg Redevelopment and Housing Authority (Authority) to advance refund a previous bond issue that was originally issued for the purpose of renovating public housing units owned by the Authority. The Authority has agreed to reimburse the City for its share of the principal and interest payments as the debt service payments come due. The current fiscal year reimbursement for debt service payments associated with the bonds totaled \$41,325. As of June 30, 2022, the outstanding balance of the loan is \$2,610,000.

Note 8. Long-term Liabilities (continued)

Component Unit – School Board

The following is a summary of the debt service requirements for the long-term liabilities of the School Board as of June 30, 2022.

Year Ending June 30,	Leases		Total School Board	
	Principal	Interest	Principal	Interest
2023	\$ 227,205	\$ 39,097	\$ 227,205	\$ 39,097

Net pension liability	72,598,687	25,011,598	(58,549,485)	39,060,800	-
School Board long-term debt	<u>\$ 98,768,384</u>	<u>\$ 27,330,773</u>	<u>\$ (62,094,312)</u>	<u>\$ 64,004,845</u>	<u>\$ 569,689</u>

Leases

The School Board, as a lessee, has entered into lease agreements involving the use of a fiber network, an office building, a mobile trailer unit and various office equipment. As of June 30, 2022, the School Board's lease liability for these payments totals \$2,309,426. The School Board has included in capital assets leased buildings in the amount of \$1,045,358 (\$49,779 in accumulated depreciation) and leased equipment in the amount of \$1,420,282 (\$109,642 in accumulated amortization).

Component Unit – HEC

At June 30, 2022, HEC had \$4,407,667 in long-term liabilities outstanding. This long-term liability is comprised of \$602,370 in compensated absences, of which the entire amount is due within one year and \$2,192,209 in net OPEB liabilities and \$1,613,088 in net pension liabilities, of which the entire amounts are due in more than one year.

Note 9. Landfill Closure and Postclosure Care Costs

In accordance with state and federal laws and regulations, the City is required to perform certain maintenance and monitoring functions at the City's closed landfill site for 30 years after the date of closure. The City closed its landfill in 1994. \$1,184,357 of the amount reported as landfill closure and postclosure care liability at June 30, 2022 represents the cumulative amount reported to date based on the use of 100 percent of the capacity of the landfill. Included in the total liability is an additional \$393,574 for groundwater remediation. These amounts are based on current year costs. Actual costs ultimately may differ due to inflation, changes in technology, or changes in regulations. The City plans to fund its landfill closure and postclosure care costs with available funds from the Sanitation Fund.

Note 10. Rockingham County Landfill Liability Agreement

Effective January 1, 2012, the City entered into a new agreement with Rockingham County (County) associated with solid waste activities of the two localities. As part of the agreement, the City will be considered a customer of the County landfill and will no longer make capital contributions for landfill expansion and other capital expenditures. The agreement also caps the City’s recognized share of the County’s closure and postclosure care costs as of the date of the agreement. Pursuant to the agreement, the City has recorded a \$2,697,965 contractual obligation to the County in the Sanitation Fund.

Note 11. Unearned Revenue

The following is a summary of unearned revenue at June 30, 2022 for governmental activities in the government-wide financial statements and for the fund financial statements.

	Governmental Activities		
	General		Total
	General Fund	Capital Projects Fund	
Advance collection of parking leases	\$ 58,470	\$ -	\$ 58,470
Golf course season passes	64,965	-	64,965
ARPA funds	21,830,670	-	21,830,670
Construction reimbursement	-	203,378	203,378
Total unearned revenue	\$ 21,954,105	\$ 203,378	\$ 22,157,483

Unearned revenue for business-type activities in the amount of \$205,600 represents water and sewer connection application fees for which the services had not been provided as of year-end. This amount is comprised of \$129,200 in the Water Fund and \$76,400 in the Sewer Fund.

Note 12. Interfund Balances

The General Fund has due from other funds in the amount \$236,831. This amount is comprised of loans to the Community Development Block Grant Fund and Central Stores Fund in the amounts of \$43,753 and \$193,078, respectively. The purpose of the loans are to eliminate year-end cash and cash equivalents deficit balances and are anticipated to be repaid within the subsequent fiscal year. The Sewer Fund has an interfund loan receivable in the amount of \$1,456,000 while the Water Fund has an interfund loan payable in the amount of \$1,456,000 for funds loaned from the Sewer Fund to the Water Fund for the purchase of land by the Water Fund.

Note 13. Interfund Transfers

Interfund transfers are generally used to subsidize the operations, programs and capital activities of certain funds. The following is a summary of interfund transfers for the year ended June 30, 2022.

Transfer in	Transfer out						Total
	General Fund	Water Fund	Sewer Funds	Public Transportation Fund	Sanitation Fund	Stormwater Fund	
General Fund	\$ -	\$ 1,527,300	\$ 1,326,600	\$ 438,137	\$ 107,200	\$ 20,400	\$ 3,419,637
General Capital Projects Fund	625,000	-	-	-	-	-	625,000
Internal Service Funds	96,581	171,410	19,017	-	-	-	287,008
Total	\$ 721,581	\$ 1,698,710	\$ 1,345,617	\$ 438,137	\$ 107,200	\$ 20,400	\$ 4,331,645

Note 14. Fund Balance

The following is a summary of amounts that are reported on the governmental funds balance sheet identified as nonspendable, restricted, committed or assigned fund balance at June 30, 2022.

	General Fund	General Capital Projects Fund	School Bond Capital Projects Fund	Other Governmental Funds	Total
Nonspendable:					
Prepaid expenditures	\$ 480,959	\$ -	\$ -	\$ 24,013	\$ 504,972
Loans receivable	296,039	-	-	-	296,039
Total nonspendable fund balance	<u>\$ 776,998</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 24,013</u>	<u>\$ 801,011</u>
Restricted for:					
Public safety	\$ 633,166	\$ -	\$ -	\$ -	\$ 633,166
Public works	-	5,306,778	-	-	5,306,778
Education	-	-	39,162,407	-	39,162,407
Total restricted fund balance	<u>\$ 633,166</u>	<u>\$ 5,306,778</u>	<u>\$ 39,162,407</u>	<u>\$ -</u>	<u>\$ 45,102,351</u>
Committed to:					
General government administration	\$ -	\$ 482,925	\$ -	\$ -	\$ 482,925
Jail and judicial administration	-	41,730	-	-	41,730
Public safety	-	2,184,171	-	-	2,184,171

Note 15. Pension Plan - Agent Multiple-Employer

Plan Description. All full-time, salaried permanent employees of the City, the non-professional employees of the Harrisonburg City School Board (School Board) and the Harrisonburg Electric Commission (HEC) are automatically covered by the VRS Retirement Plan upon employment. This plan is an agent multiple-employer pension plan administered by the Virginia Retirement System (System) along with plans for other employer groups in the Commonwealth of Virginia. The City and HEC employees participate in the same retirement plan. Members earn one month of service credit for each month they are employed and for which they and their employer are paying contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service. The *Code of Virginia*, as amended, assigns the authority to establish and amend benefit provisions to the Virginia General Assembly.

Benefits Provided. VRS administers three different benefit structures for covered employees. Each benefit structure has different eligibility criteria.

Note 15. Pension Plan - Agent Multiple-Employer (continued)

Plan 1. Plan 1 is a defined benefit plan. Members hired before July 1, 2010 and who were vested as of January 1, 2013 are covered under Plan 1. Members become vested when they have at least five years of creditable service. Non-hazardous duty members are eligible for an unreduced retirement benefit beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of service credit. They may retire with a reduced benefit as early as age 55 with at least five years of service credit or age 50 with at least 10 years of service credit.

Plan 2. Plan 2 is a defined benefit plan. Members hired between July 1, 2010 and December 31, 2013 or members hired before July 1, 2010 who were not vested as of January 1, 2013 are covered under Plan 2. Members become vested when they have at least five years of creditable service. Non-hazardous duty members are eligible for an unreduced retirement benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service credit.

Hybrid Plan. The Hybrid Plan combines features of a defined benefit plan and a defined contribution plan. Members hired after January 1, 2014 and Plan 1 and Plan 2 members who opted into the plan during a special election window are covered under the Hybrid Plan. Members become vested in the defined benefit portion of the Hybrid Plan when they have at least five years of creditable service and become 100 percent vested in employer contributions to the defined contribution portion of the Hybrid Plan after four years of creditable service. Members are eligible for an unreduced retirement benefit from the defined benefit component beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit from the defined benefit component as early as age 60 with at least five years of service credit. Members are eligible to receive distributions from the defined contribution component upon leaving employment, subject to restrictions.

Hazardous duty members. Under Plans 1 and 2, eligible hazardous duty members (police officers and firefighters) are eligible for an unreduced benefit beginning at age 60 with at least five years of service credit or age 50 with at least 25 years of service credit. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the member's plan apply. Hazardous duty members are not eligible for the Hybrid Plan.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation (AFC) multiplied by the member's total service credit. Under Plan 1, AFC is the average of the member's 36 consecutive months of highest compensation. Under Plan 2 and the Hybrid Plan, AFC is the average of the member's 60 consecutive months of highest compensation. The defined benefit retirement multiplier is 1.7 percent for non-hazardous duty Plan 1 members, 1.65 percent for non-hazardous duty Plan 2 members (1.7 percent for service earned, purchased or granted prior to January 1, 2013), 1 percent for Hybrid Plan members and 1.85 percent for eligible hazardous duty members. In addition, eligible hazardous duty members receive a monthly benefit supplement if they retire prior to age 65. At retirement, members can elect the Basic Benefit, the Survivor Option, the Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

Members who retire with an unreduced benefit or a reduced benefit with at least 20 years of creditable service are eligible for an annual cost-of-living adjustment (COLA) effective July 1 after one full calendar year from the member's retirement date. Members who retire with a reduced benefit and who have less than 20 years of creditable service, the COLA is effective July 1 after one calendar year following the unreduced retirement eligibility date. Other exceptions also apply to the COLA effective date. Under Plan 1, the COLA matches the first three percent increase in the Consumer Price Index for all Urban Consumers (CPI-U) and half of any additional increase (up to four percent) for a maximum COLA of five percent. Under Plan 2 and the defined benefit component of the Hybrid Plan, the COLA matches the first two percent increase in the CPI-U and half of any additional increase (up to two percent) for a maximum COLA of three percent.

Note 15. Pension Plan - Agent Multiple-Employer (continued)

The VRS also provides death and disability benefits to Plan 1 and Plan 2 members. Hybrid Plan members are covered by the Virginia Local Disability Program administered by VRS for disability benefits unless the local government provides an employer paid comparable program for its members. The City, School Board and HEC decided to provide an employer paid comparable program to its employees.

Employees Covered by Benefit Terms. At June 30, 2020, the following employees were covered by the benefit terms:

	Primary Government	Component Units	
		School Board	HEC
Inactive employees or beneficiaries currently receiving benefits	350	60	27
Inactive employees entitled to but not yet receiving benefits	408	68	31
Active employees	573	102	44
Total inactive and active employees	1,331	230	102

Contributions. The contribution requirement for active employees is governed by Section 51.1-145 the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute five percent of their annual reported compensation toward their retirement. The City and HEC’s contractually required contribution rate for the fiscal year ended 2022 was 12.85 percent of covered employee compensation. The School Board non-professional employees’ contribution rate for the fiscal year ended 2022 was 4.01 percent of covered employee compensation. These rates were based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. These rates, when combined with employee contributions, were expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the City, the School Board and HEC to the pension plans were \$3,501,465, \$78,311 and \$414,578, respectively, for the year ended June 30, 2022.

Net Pension Liability. The net pension liability is calculated separately for each employer and represents that particular employer’s total pension liability less that employer’s fiduciary net position. The net pension liability was measured as of June 30, 2021. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2020 and rolled forward to the measurement date of June 30, 2021.

Actuarial Assumptions – General Employees. The total pension liability for general employees was based on an actuarial valuation as of June 30, 2020, using the entry age normal actuarial cost method. The following assumptions were applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

Inflation	2.50 percent
Salary increases, including inflation	3.50 percent – 5.35 percent
Investment rate of return, including inflation	6.75 percent (net of pension plan investment expense)

Mortality rates:

All Others (Non 10 Largest) – Non-Hazardous Duty: 15% of deaths are assumed to be service related.

Pre-Retirement:

Pub-2010 Amount Weighted Safety Employee Rates projected generationally; 95% of rates for males; 105% of rates for females set forward two years.

Post-Retirement:

Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 110% of rates for males; 105% of rates for females set forward three years.

Note 15. Pension Plan - Agent Multiple-Employer (continued)

Post-Disablement:

Pub-2010 Amount Weighted General Disabled Rates projected generationally; 95% of rates for males set back three years; 90% of rates for females set back three years.

Beneficiary and Survivors:

Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally; 110% of rates for males and females set forward two years.

Mortality Improvement:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study are as follows:

All Others (Non 10 Largest): Updated mortality rates to Pub-2010 public sector mortality tables and replaced mortality rates with a modified Mortality Improvement Scale MP-2020; adjusted retirement rates to better fit experience for Plan 1, set separate rates based on experience for Plan 2/Hybrid and changed the final retirement age; adjusted withdrawal rates to better fit experience at each year age and service through nine years of service.

Actuarial Assumptions – Hazardous Duty Employee. The total pension liability for hazardous duty employees was based on an actuarial valuation as of June 30, 2020, using the entry age normal actuarial cost method. The following assumptions were applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

Inflation	2.50 percent
Salary increases, including inflation	3.50 percent – 4.75 percent
Investment rate of return, including inflation	6.75 percent (net of pension plan investment expense*)

Mortality rates:

All Others (Non 10 Largest) – Hazardous Duty: 45% of deaths are assumed to be service related.

Pre-Retirement:

Pub-2010 Amount Weighted Safety Employee Rates projected generationally with a Modified MP-2020 Improvement Scale; 95% of rates for males; 105% of rates for females set forward two years.

Post-Retirement:

Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally with a Modified MP-2020 Improvement Scale; 110% of rates for males; 105% of rates for females set forward three years.

Post-Disablement:

Pub-2010 Amount Weighted General Disabled Rates projected generationally with a Modified MP-2020 Improvement Scale; 95% of rates for males set back three years; 90% of rates for females set back three years.

Beneficiary and Survivors:

Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally with a Modified MP-2020 Improvement Scale; 110% of rates for males and females set forward two years.

Mortality Improvement:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study are as follows:

All Others (Non 10 Largest) – Hazardous Duty: Updated mortality rates to Pub-2010 public sector mortality tables, increased disability life expectancy and replaced mortality rates with a modified Mortality Improvement Scale MP-2020; adjusted retirement rates to better fit experience and changed the final retirement age from 65 to 70; adjusted withdrawal rates and changed from rates based on age and service to rates based on service only to better fit experience and to be more consistent with the 10 Largest – Hazardous Duty employers.

Note 15. Pension Plan - Agent Multiple-Employer (continued)

Long-term Expected Rate of Return. The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-term Expected Rate of Return
Public Equity	34.00%	5.00%	1.70%
Fixed Income	15.00%	0.57%	0.09%
Credit Strategies	14.00%	4.49%	0.63%
Real Assets	14.00%	4.76%	0.67%
Private Equity	14.00%	9.94%	1.39%
Multi-Asset Public Strategies (MAPS)	6.00%	3.29%	0.20%
Private Investment Partnersip (PIP)	3.00%	6.84%	0.21%
Total	100.00%		4.89%
		Inflation	2.50%
		Expected arithmetic nominal return*	7.39%

**The above allocation provides a one-year return of 7.39%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.94%, including expected inflation of 2.5%. On October 10, 2019, the VRS Board elected a long-term rate of 6.75%, which was roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.11%, including expected inflation of 2.5%.*

Discount Rate. The discount rate used to measure the total pension liability was 6.75 percent. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Political subdivisions were provided with an opportunity to use an alternate employer contribution rate. For the fiscal year ended June 30, 2021, the alternate rate was the employer contribution rate used in fiscal year 2012 or 100 percent of the actuarially determined employer contribution rate from the June 30, 2017, actuarial valuation, whichever was greater. From July 1, 2021 on, participating employers are assumed to continue to contribute 100 percent of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Note 15. Pension Plan - Agent Multiple-Employer (continued)

Changes in the Net Pension Liability (Asset). The following are the changes in net pension liability (asset) as of the measurement date of June 30, 2021:

Primary Government

	Increase (Decrease)		
	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
Balances at June 30, 2020	\$ 145,157,025	\$ 113,542,311	\$ 31,614,714

Balances at June 30, 2021	<u>\$ 18,501,075</u>	<u>\$ 16,887,987</u>	<u>\$ 1,613,088</u>

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate. The following presents the net pension liability (asset) using the discount rate of 6.75 percent, as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is one percentage point lower (5.75 percent) or one percentage point higher (7.75 percent) than the current rate:

	1% Decrease (5.75%)	Current Discount Rate (6.75%)	1% Increase (7.75%)
Primary Government:			
Net Pension Liability (Asset)	\$ 35,181,208	\$ 13,623,904	\$ (4,043,578)
Component Unit - School Board:			
Net Pension Liability (Asset)	\$ (646,166)	\$ (1,608,217)	\$ (2,423,647)
Component Unit - HEC:			
Net Pension Liability (Asset)	\$ 4,165,501	\$ 1,613,088	\$ (478,765)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended June 30, 2022, the City, the School Board and HEC recognized pension expense of \$2,416,824, \$(52,417) and \$209,528, respectively. At June 30, 2022, the City, the School Board and HEC reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Note 15. Pension Plan - Agent Multiple-Employer (continued)

	Component Units					
	Primary Government		School Board		HEC	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,513,193	\$ 655,419	\$ 34,257	\$ -	\$ 179,164	\$ 77,602
Changes in assumptions	5,222,438	-	195,403	-	618,343	-
Net difference between projected and actual earnings on pension plan investments	-	15,446,704	-	1,147,133	-	1,828,910
Employer contributions subsequent to the measurement date	3,501,465	-	78,311	-	414,578	-
Total	\$ 10,237,096	\$ 16,102,123	\$ 307,971	\$ 1,147,133	\$ 1,212,085	\$ 1,906,512

The amounts reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Primary Government	Component Units	
		School Board	HEC
2023	\$ (461,758)	\$ (135,867)	\$ (54,673)

Pension Plan Data. Detailed information about the VRS Retirement Plan is available in the separately issued VRS 2021 Annual Comprehensive Financial Report. A copy of this report may be downloaded from the VRS website at varetire.org/Pdf/Publications/2021-annual-report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

Payable to the Pension Plan

At June 30, 2022, the City and School Board reported a payable of \$459,593 and \$15,366, respectively, for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2022.

Note 16. Pension Plan - Teacher Cost-Sharing Pool

Plan Description. All full-time, salaried permanent (professional) employees of the Harrisonburg City School Board (School Board) are automatically covered by the VRS Teacher Retirement Plan upon employment. This plan is a cost-sharing multiple-employer pension plan administered by the Virginia Retirement System (System) along with plans for other employer groups in the Commonwealth of Virginia (Commonwealth). Members earn one month of service credit for each month they are employed and for which they and their employer are paying contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service. The *Code of Virginia*, as amended, assigns the authority to establish and amend benefit provisions to the Virginia General Assembly.

Note 16. Pension Plan - Teacher Cost-Sharing Pool (continued)

Benefits Provided. VRS administers three different benefit structures for covered employees. Each benefit structure has different eligibility criteria and are substantially the same as described in Note 15.

Contributions. The contribution requirement for active employees is governed by Section 51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to school divisions by the Virginia General Assembly. Members are required to contribute five percent of their annual reported compensation toward their retirement. The School Board's contractually required contribution rate for the year ended June 30, 2022 was 16.62 percent of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan were \$7,738,631 for the year ended June 30, 2022. In June 2021, the Commonwealth made a special contribution of approximately \$61.3 million to the VRS Teacher Employee Plan. The School Board's proportionate share of this special contribution totaled \$308,660.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2022, the School Board reported a liability of \$39,060,800 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2020 and rolled forward to the measurement date of June 30, 2021. The School Board's proportion of the net pension liability was based on the actuarially determined employer contributions to the pension plan for the year ended June 30, 2021 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2021, the school division's proportion was 0.50316%.

For the year ended June 30, 2022, the School Board recognized pension expense of \$1,891,079. Since there was a change in the proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2022, the School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	\$ 3,326,963
Changes in assumptions	6,843,350	-
Net difference between projected and actual earnings on pension plan investments	-	24,615,071
Changes in proportion and differences between employer contributions and proportionate share of contributions	2,015,734	-
Employer contributions subsequent to the measurement date	<u>7,738,631</u>	<u>-</u>
Total	<u>\$ 16,597,715</u>	<u>\$ 27,942,034</u>

The deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Note 16. Pension Plan - Teacher Cost-Sharing Pool (continued)

<u>Year Ending June 30,</u>	<u>Deferred Amounts to be Recognized</u>
2023	\$ (3,919,393)
2024	(3,789,204)
2025	(4,617,371)
2026	(6,764,818)
2027	7,836
Thereafter	-

Actuarial Assumptions. The total pension liability was based on an actuarial valuation as of June 30, 2020, using the entry age normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

Inflation	2.50 percent
Salary increases, including inflation	3.50 percent – 5.95 percent
Investment rate of return, including inflation	6.75 percent (net of plan investment expense)

Mortality rates (teachers):

Pre-Retirement:

Pub-2010 Amount Weighted Teachers Employee Rates projected generationally; 110% of rates for males.

Post-Retirement:

Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward one year; 105% of rates for females.

Post-Disablement:

Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally; 110% of rates for males and females.

Beneficiary and Survivors:

Pub-2010 Amount Weighted Teachers Contingent Annuitant Rates projected generationally.

Mortality Improvement:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions were substantially the same as described in Note 15.

Long-term Expected Rate of Return. The long-term expected rate of return on pension System investments is substantially the same as described in Note 15.

Discount Rate. The discount rate used to measure the total pension liability is substantially the same as described in Note 15.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the School Board's proportionate share of the net pension liability using the discount rate of 6.75 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75 percent) or one percentage point higher (7.75 percent) than the current rate:

	<u>1% Decrease (5.75%)</u>	<u>Current Discount Rate (6.75%)</u>	<u>1% Increase (7.75%)</u>
Proportionate share of the net pension liability	\$ 75,385,230	\$ 39,060,800	\$ 9,179,105

Note 16. Pension Plan - Teacher Cost-Sharing Pool (continued)

Pension Plan Fiduciary Net Position. Detailed information about the VRS Teacher Retirement Plan's fiduciary net position is available in the separately issued VRS 2021 Annual Comprehensive Financial Report. A copy of this report may be downloaded from the VRS website at varetire.org/Pdf/Publications/2021-annual-report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

Payables to the Pension Plan. At June 30, 2022, the School Board reported a payable of \$839,561 for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2022.

Note 17. Other Postemployment Benefits

VRS Group Life Insurance Program

Plan Description. All full-time, salaried permanent employees of the City, the Harrisonburg City School Board (School Board) and the Harrisonburg Electric Commission (HEC) are automatically covered by the Group Life Insurance Program (GLI Program) upon employment. The GLI Program is a cost-sharing multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS) along with plans for other employer groups in the Commonwealth of Virginia and is considered other postemployment benefits (OPEB). The GLI Program provides a basic group life insurance benefit for participating employers. Title 51.1 of the *Code of Virginia* (1950), as amended, assigns the authority to establish and amend benefit provisions to the Virginia General Assembly.

In addition to the GLI Program benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional Group Life Insurance Program. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured program, it is not included as part of the GLI Program OPEB.

Benefits Provided. The benefits payable under the GLI Program have several components. A natural death benefit is equal to the employee's covered compensation rounded to the next highest thousand and then doubled and an accidental death benefit is double the natural death benefit. In addition to the natural and accidental death benefits, additional benefits are provided under specific circumstances such as accidental dismemberment and an accelerated death benefit option.

The benefit amounts provided to covered employees are subject to a reduction factor. The benefit amount reduces by 25 percent on January 1 following one calendar year of separation. The benefit amount reduces by an additional 25 percent on each subsequent January 1 until it reaches 25 percent of its original value. For covered employees with at least 30 years of creditable service, there is a minimum benefit payable of \$8,722 that is based on the VRS Plan 2 pension cost-of-living adjustment.

Contributions. The contribution requirement for the GLI Program is governed by Sections 51.1-506 and 51.1-508 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to state agencies and school divisions by the Virginia General Assembly. The total rate for the GLI Program was 1.34 percent of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.80 percent and the employer component was 0.54 percent. The contractually required employer contribution rate for the year ended June 30, 2022 was 0.54 percent of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the City, the School Board and HEC to the GLI Program were \$153,499, \$278,387 and \$18,073, respectively, for the year ended June 30, 2022.

Note 17. Other Postemployment Benefits (continued)

VRS Group Life Insurance Program (continued)

OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2022, the City, the School Board and HEC reported a liability of \$1,564,519, \$2,664,900 and \$184,205, respectively, for their proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2021. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation performed as of June 30, 2020 and rolled forward to the measurement date of June 30, 2021. The City, the School Board and HEC's proportion of the net OPEB liability was based on the actuarially determined employer contributions to the GLI Program for the year ended June 30, 2021 relative to the total of the actuarially determined employer contributions for all participating employers. At the June 30, 2021 measurement date, the City, the School Board and HEC's proportion was 0.13382%, 0.22889% and 0.01611%, respectively.

For the year ended June 30, 2022, the City, the School Board and HEC recognized OPEB expense of \$75,413, \$169,951 and \$2,183, respectively. Since there was a change in the proportionate share between measurement dates, a portion of the OPEB expense was related to deferred amounts from changes in proportion.

At June 30, 2022, the City, the School Board and HEC reported deferred outflows of resources and deferred inflows of resources related to the GLI Program from the following sources:

	Component Units					
	Primary Government		School Board		HEC	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 178,439	\$ 11,920	\$ 303,941	\$ 20,305	\$ 21,009	\$ 1,404
Changes of assumptions	86,252	214,060	146,915	364,616	10,155	25,203
Net difference between projected and actual earnings on OPEB plan investments	-	373,417	-	636,054	-	43,966
Changes in proportionate share Employer contributions subsequent to the measurement date	26,616	23,899	167,432	2,717	3,134	2,814
	<u>153,499</u>	<u>-</u>	<u>278,387</u>	<u>-</u>	<u>18,073</u>	<u>-</u>
Total	<u>\$ 444,806</u>	<u>\$ 623,296</u>	<u>\$ 896,675</u>	<u>\$ 1,023,692</u>	<u>\$ 52,371</u>	<u>\$ 73,387</u>

The deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30,	Primary Government	Component Units	
		School Board	HEC
2023	\$ (74,549)	\$ (69,806)	\$ (8,778)
2024	(57,498)	(54,077)	(6,770)
2025	(57,655)	(74,454)	(6,788)
2026	(117,949)	(180,340)	(13,887)
2027	(24,338)	(26,727)	(2,866)
Thereafter	-	-	-

Note 17. Other Postemployment Benefits (continued)

VRS Group Life Insurance Program (continued)

Actuarial Assumptions. The total OPEB liability was based on an actuarial valuation as of June 30, 2020, using the entry age normal actuarial cost method and actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021. The actuarial assumptions used and changes to the assumptions are substantially the same as described in Note 15 and Note 16.

Long-term Expected Rate of Return. The long-term expected rate of return on VRS investments is substantially the same as the VRS pension plans described in Note 15.

Discount Rate. The discount rate used to measure the total OPEB liability was 6.75 percent and is substantially the same as described in Note 15.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate. The following presents the proportionate share of the net OPEB liability using the discount rate of 6.75 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75 percent) or one percentage point higher (7.75 percent) than the current rate:

	<u>1% Decrease (5.75%)</u>	<u>Current Discount Rate (6.75%)</u>	<u>1% Increase (7.75%)</u>
Primary Government:			
Net OPEB Liability	\$ 2,285,819	\$ 1,564,519	\$ 982,037
Component Unit - School Board:			
Net OPEB Liability	\$ 3,893,516	\$ 2,664,900	\$ 1,672,738
Component Unit - HEC:			
Net OPEB Liability	\$ 269,130	\$ 184,205	\$ 115,624

OPEB Plan Fiduciary Net Position. Detailed information about the VRS GLI Program Plan's fiduciary net position is available in the separately issued VRS 2021 Annual Comprehensive Financial Report. A copy of this report may be downloaded from the VRS website at varetire.org/Pdf/Publications/2021-annual-report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

Payables to the OPEB Plan. At June 30, 2022, the City and the School Board reported a payable of \$36,370 and \$58,049, respectively, for the outstanding amount of contributions to the OPEB plan required for the year ended June 30, 2022.

VRS Health Insurance Credit Program – Teacher Cost-Sharing Pool

Plan Description. All full-time, salaried permanent (professional) employees of the Harrisonburg City School Board (School Board) are automatically covered by the Teacher Employee Health Insurance Credit Program (HIC Program) upon employment. The HIC Program is a cost-sharing multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS) along with plans for other employer groups in the Commonwealth of Virginia and is considered other postemployment benefits (OPEB). Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The health insurance credit is a tax-free reimbursement in an amount set by the Virginia General Assembly for each year of service credit to be used towards qualified health insurance premiums that a retiree pays for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premium and ends upon the retiree's death. Title 51.1 of the *Code of Virginia* (1950), as amended, assigns the authority to establish and amend benefit provisions to the Virginia General Assembly.

Note 17. Other Postemployment Benefits (continued)

VRS Health Insurance Credit Program – Teacher Cost-Sharing Pool (continued)

Benefits Provided. Eligible employees who have 15 or more years of creditable VRS service and are enrolled in a qualified health insurance plan may participate in the program. For employees who retire, the monthly benefit is \$4.00 per year of creditable service per month with no cap on the benefit amount. For employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is either (1) \$4.00 per month, multiplied by twice the amount of service credit, or (2) \$4.00 per month, multiplied by the amount of service earned had the employee been active until age 60, whichever is lower. The benefit cannot exceed the amount of the premium and ends upon the retiree's death.

Contributions. The contribution requirement for active employees is governed by Section 51.1-145(E) of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to school divisions by the Virginia General Assembly. The School Board's contractually required contribution rate for the year ended June 30, 2022 was 1.21 percent of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the HIC Program were \$593,004 for the year ended June 30, 2022. Employees are not required to contribute to the HIC Program.

OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2022, the School Board reported a liability of \$6,503,460 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2021. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation performed as of June 30, 2020 and rolled forward to the measurement date of June 30, 2021. The School Board's proportion of the net OPEB liability was based on the actuarially determined employer contributions to the HIC Program for the year ended June 30, 2021 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2021, the school division's proportion was 0.50667%.

For the year ended June 30, 2022, the School Board recognized OPEB expense of \$605,714. Since there was a change in the proportionate share between measurement dates, a portion of the OPEB expense was related to deferred amounts from changes in proportion.

At June 30, 2022, the School Board reported deferred outflows of resources and deferred inflows of resources related to the HIC Program from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	\$ 113,485
Changes in assumptions	175,800	26,137
Net difference between projected and actual earnings on OPEB plan investments	-	85,670
Changes in proportionate share	325,272	-
Employer contributions subsequent to the measurement date	<u>593,004</u>	<u>-</u>
Total	<u>\$ 1,094,076</u>	<u>\$ 225,292</u>

The deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Note 17. Other Postemployment Benefits (continued)

VRS Health Insurance Credit Program – Teacher Cost-Sharing Pool (continued)

<u>Year Ending June 30,</u>	<u>Deferred Amounts to be Recognized</u>
2023	\$ 68,915
2024	67,942
2025	59,684
2026	30,345
2027	30,631
Thereafter	18,263

Actuarial Assumptions. The total OPEB liability was based on an actuarial valuation as of June 30, 2020, using the entry age normal actuarial cost method and actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021. The actuarial assumptions used and changes to the assumptions are substantially the same as described in and Note 16.

Long-term Expected Rate of Return. The long-term expected rate of return on VRS investments is substantially the same as described in Note 15.

Discount Rate. The discount rate used to measure the total OPEB liability was 6.75 percent and is substantially the same as described in Note 15.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate. The following presents the School Board's proportionate share of the net OPEB liability using the discount rate of 6.75 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75 percent) or one percentage point higher (7.75 percent) than the current rate:

	<u>1% Decrease (5.75%)</u>	<u>Current Discount Rate (6.75%)</u>	<u>1% Increase (7.75%)</u>
Proportionate share of the net OPEB liability	\$ 7,321,093	\$ 6,503,460	\$ 5,811,547

OPEB Plan Fiduciary Net Position. Detailed information about the VRS HIC Program Plan's fiduciary net position is available in the separately issued VRS 2021 Annual Comprehensive Financial Report. A copy of this report may be downloaded from the VRS website at varetire.org/Pdf/Publications/2021-annual-report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

Payables to the OPEB Plan. At June 30, 2022, the School Board reported a payable of \$49,906 for the outstanding amount of contributions to the OPEB plan required for the year ended June 30, 2022.

VRS Health Insurance Credit Program – Nonprofessional Employees

Plan Description. All full-time, salaried permanent (nonprofessional) employees of the Harrisonburg City School Board (School Board) are automatically covered by the Health Insurance Credit Program (HIC Program) upon employment. The HIC Program is an agent multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS) along with plans for other employer groups in the Commonwealth of Virginia and is considered other postemployment benefits (OPEB). Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The health insurance credit is a tax-free reimbursement in an amount set by the Virginia General Assembly for each year of service credit

Note 17. Other Postemployment Benefits (continued)

VRS Health Insurance Credit Program – Nonprofessional Employees (continued)

to be used towards qualified health insurance premiums that a retiree pays for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premium and ends upon the retiree's death. Title 51.1 of the *Code of Virginia* (1950), as amended, assigns the authority to establish and amend benefit provisions to the Virginia General Assembly.

Benefits Provided. Eligible employees who have 15 or more years of creditable VRS service and are enrolled in a qualified health insurance plan may participate in the program. For employees who retire, the monthly benefit is \$1.50 per year of creditable service per month with a maximum benefit of \$45 per month. For employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is \$45 per month. The benefit cannot exceed the amount of the premium and ends upon the retiree's death.

Employees Covered by Benefit Terms. At June 30, 2020, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	30
Inactive employees entitled to but not yet receiving benefits	1
Active employees	<u>102</u>
Total inactive and active employees	<u><u>133</u></u>

Contributions. The contribution requirement for active employees is governed by Section 51.1-145(E) of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to school divisions by the Virginia General Assembly. The School Board's contractually required contribution rate for the year ended June 30, 2022 was 0.70 percent of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2020. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the HIC Program were \$17,811 for the year ended June 30, 2022. Employees are not required to contribute to the HIC Program.

Net OPEB Liability. The net OPEB liability is calculated separately for each employer and represents that particular employer's total OPEB liability less that employer's fiduciary net position. The net OPEB liability was measured as of June 30, 2021. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation performed as of June 30, 2020 and rolled forward to the measurement date of June 30, 2021.

Actuarial Assumptions. The total OPEB liability was based on an actuarial valuation as of June 30, 2020, using the entry age normal actuarial cost method and actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021. The actuarial assumptions used and changes to the assumptions are substantially the same as described in and Note 15.

Long-term Expected Rate of Return. The long-term expected rate of return on VRS investments is substantially the same as the VRS pension plans described in Note 15.

Discount Rate. The discount rate used to measure the total OPEB liability was 6.75 percent and is substantially the same as described in Note 15.

Note 17. Other Postemployment Benefits (continued)

VRS Health Insurance Credit Program – Nonprofessional Employees (continued)

Changes in the Net OPEB Liability. The following are the changes in net OPEB liability as of the measurement date of June 30, 2021:

	Increase (Decrease)		
	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability
Balances at June 30, 2020	\$ 183,944	\$ -	\$ 183,944
Changes for the year:			
Service cost	3,463	-	3,463
Interest	12,416	-	12,416
Changes in assumptions	6,417	-	6,417
Contributions-employer	-	17,137	(17,137)
Net investment income	-	2,337	(2,337)
Administrative expense	-	(76)	76
Net changes	<u>22,296</u>	<u>19,398</u>	<u>2,898</u>
Balances at June 30, 2021	<u>\$ 206,240</u>	<u>\$ 19,398</u>	<u>\$ 186,842</u>

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate. The following presents the School Board's net OPEB liability using the discount rate of 6.75 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75 percent) or one percentage point higher (7.75 percent) than the current rate:

	1% Decrease (5.75%)	Current Discount Rate (6.75%)	1% Increase (7.75%)
Net OPEB Liability	\$ 207,049	\$ 186,842	\$ 169,469

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended June 30, 2022, the School Board recognized pension expense of \$16,322. At June 30, 2022, the School Board reported deferred outflows of resources and deferred inflows of resources related to the HIC from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in assumptions	\$ 5,123	\$ -
Net difference between projected and actual earnings on pension plan investments	-	1,409
Employer contributions subsequent to the measurement date	<u>17,811</u>	<u> </u>
Total	<u>\$ 22,934</u>	<u>\$ 1,409</u>

The deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

HIC Program Data. Detailed information about the VRS HIC Program is available in the separately issued VRS 2021 Annual Comprehensive Financial Report. A copy of this report may be downloaded from the VRS website at varetire.org/Pdf/Publications/2021-annual-report.pdf or by writing to the System’s Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

Payables to the OPEB Plan. At June 30, 2022, the School Board reported a payable of \$1,453 for the outstanding amount of contributions to the OPEB plan required for the year ended June 30, 2022.

Local Health Insurance Program

Plan Description

City of Harrisonburg. The City provides certain healthcare benefits for retired employees through the City of Harrisonburg Postretirement Healthcare Benefit Plan (Plan). The plan is administered through a single-employer defined benefit plan and is considered other postemployment benefits (OPEB). The Plan provides for an option to eligible retirees and their eligible dependents to continue their coverage in the same health insurance program available to all City employees at the active employee rates. Eligible retirees must be 50 years of age and meet the Virginia Retirement System requirements for service or disability retirement. Retirees must have at least 15 years of consecutive eligible service with the City immediately prior to retirement. Also, retirees must have participated in the City’s health insurance program for a minimum of five years immediately prior to retirement. The benefit ends upon the retiree’s eligibility for Medicare coverage. These benefit provisions are established and may be amended by the Harrisonburg City Council through the City’s Human Resources Policy Manual. The Plan does not issue a publicly available financial report.

School Board. The Harrisonburg City School Board provides certain healthcare benefits for retired employees through the Harrisonburg City School Board Postretirement Healthcare Benefit Plan (Plan). The plan is administered through a single-employer defined benefit plan and is considered other postemployment benefits (OPEB). The Plan provides for an option to eligible retirees and their eligible dependents to continue their coverage in the same health insurance program available to all School Board employees at the active employee rates. Eligible retirees must be 50 years of age and meet the Virginia Retirement System requirements for service or disability retirement. Retirees must have at least ten years of cumulative eligible service with the School Board with a minimum of five years immediately prior to retirement. Depending on the number of years of eligible service, the retiree may remain on the plan for a maximum of fifteen years but in all instances the benefit ends upon the retiree’s eligibility for Medicare coverage. These benefit provisions are established and may be amended by the Harrisonburg City School Board through the School Board’s Human Resources Policy Manual. The Plan does not issue a publicly available financial report.

Note 17. Other Postemployment Benefits (continued)

Local Health Insurance Program (continued)

Benefits Provided

City of Harrisonburg. The City contributes \$10 for each full year of service up to a maximum of \$350 towards the retiree’s monthly premium. The retiree must contribute any remaining monthly premium amount based on the coverage that is selected.

School Board. The School Board contributes \$10 for each full year of service up to a maximum of \$350 towards the retiree’s monthly premium. The retiree must contribute the remaining monthly premium amount.

Employees Covered by Benefit Terms. At June 30, 2021, the following employees were covered by the benefit terms:

	<u>Primary Government</u>	<u>School Board</u>
Inactive employees or beneficiaries currently receiving benefits	57	69
Active employees	<u>561</u>	<u>973</u>
Total inactive and active employees	<u><u>618</u></u>	<u><u>1,042</u></u>

Contributions. The contribution requirements of the City Plan are established and may be amended by the Harrisonburg City Council through the City’s Human Resources Policy Manual. The contribution requirements of the School Board Plan are established and may be amended by the Harrisonburg City School Board through the School Board’s Human Resources Policy Manual. The City and the School Board currently pay for these benefits on a pay-as-you-go basis.

Total OPEB Liability. The total OPEB liabilities of \$10,928,771 and \$11,524,910 for the City and School Board, respectively, were measured as of June 30, 2022 and were determined by actuarial valuations performed as of June 30, 2022.

Actuarial Assumptions. The total OPEB liabilities were based on an actuarial valuation as of June 30, 2021, using the entry age normal actuarial cost method. The following assumptions were applied to all periods included in the measurement.

Inflation	Not applicable
Salary increases	Not applicable
Investment rate of return	Not applicable
Healthcare cost trend rate	6.25 percent graded uniformly to 5.75 percent over three years and following the Getzen model thereafter to an ultimate rate of 4.04 percent in the year 2075.

The mortality, retirement, withdrawal, and disability assumptions are substantially the same as the assumptions used in the June 30, 2020 valuation of the Virginia Retirement System as described in Note 15.

Changes to the actuarial assumptions used for the June 30, 2021 actuarial valuation include an adjustment to the healthcare cost trend rate and changes to the withdrawal, retirement, mortality, and disability assumptions to be consistent with VRS’s actuarial assumptions.

Discount Rate. The discount rate used to measure the OPEB liabilities was 2.18 percent based on the S&P Municipal Bond 20 Year High Grade Rate Index as of June 30, 2021.

Note 17. Other Postemployment Benefits (continued)

Local Health Insurance Program (continued)

Changes in the Total OPEB Liability. The following are the changes in the total OPEB liability as of the measurement date of June 30, 2022:

	<u>Primary Government</u>	<u>School Board</u>
Balances at June 30, 2021	\$ 11,706,047	\$ 12,720,660
Changes for the year:		
Service cost	666,698	997,969
Interest	341,291	371,777
Differences between expected and actual experience	(1,645,184)	(2,172,203)
Changes in assumptions	388,470	352,911
Benefit payments	<u>(528,551)</u>	<u>(746,204)</u>
Net changes	<u>(777,276)</u>	<u>(1,195,750)</u>
Balances at June 30, 2022	<u>\$ 10,928,771</u>	<u>\$ 11,524,910</u>

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate. The following presents the City and the School Board's total OPEB liability using the discount rate of 2.18 percent, as well as what the total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.18 percent) or one percentage point higher (3.18 percent) than the current rate:

	<u>1% Decrease (1.18%)</u>	<u>Current Rate (2.18%)</u>	<u>1% Increase (3.18%)</u>
Primary Government:			
Total OPEB liability	\$ 12,007,399	\$ 10,928,771	\$ 9,956,315
School Board:			
Total OPEB liability	\$ 12,605,513	\$ 11,524,910	\$ 10,547,034

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rate. The following presents the City and the School Board's total OPEB liability using the healthcare cost trend rate of 6.25 percent decreasing to 5.75 percent over two years, as well as what the total OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage point lower (5.25 percent decreasing to 3.04 percent over two years) or one percentage point higher (7.25 percent decreasing to 5.04 percent over two years) than the current rate:

	<u>1% Decrease</u>	<u>Current Rate</u>	<u>1% Increase</u>
Primary Government:			
Total OPEB liability	\$ 9,810,117	\$ 10,928,771	\$ 12,261,098
School Board:			
Total OPEB liability	\$ 10,301,224	\$ 11,524,910	\$ 13,268,056

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended June 30, 2022, the City and the School Board recognized OPEB expense of \$1,159,123 and \$1,283,957, respectively. At June 30, 2022, the City and the School Board reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Note 17. Other Postemployment Benefits (continued)

Local Health Insurance Program (continued)

	Primary Government		School Board	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,288,522	\$ 1,370,987	\$ 899,867	\$ 1,900,678

Note 18. Joint Ventures

Harrisonburg-Rockingham Regional Sewer Authority. The City, Rockingham County, and the towns of Bridgewater, Dayton and Mt. Crawford have entered into an agreement with the Harrisonburg-Rockingham Regional Sewer Authority (Authority), whereby the Authority agrees to operate a sewage disposal system for the participating municipalities. The municipalities have an ongoing financial responsibility based on an agreement to make annual contributions to the Authority for operations and maintenance based on their respective usage of the system. The municipalities also agree to make contributions to the Authority for debt service. In fiscal year 2022, the City's contributions totaled \$6,628,533 of which \$2,945,226 was for operations, \$2,737,579 was for debt service and \$945,728 was for capital purposes. These contributions are made from the Sewer Fund. The City does not have an ongoing financial interest in the Authority since it does not have access to the Authority's resources or surpluses, nor is it liable for the Authority's debts or deficits. To obtain a copy of the audited financial statements, contact the Authority at P.O. Box 8, 856 North River Road, Mt. Crawford, Virginia 22841.

The Authority has \$56.9 million of total debt outstanding at June 30, 2022. The City's share of the required principal and interest payments for the Authority's bond issues is projected as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2023	\$ 1,984,397	\$ 702,646	\$ 2,687,043
2024	2,040,989	646,054	2,687,043
2025	2,099,322	587,721	2,687,043
2026	2,159,451	527,592	2,687,043
2027	2,221,433	465,610	2,687,043
2028-2032	9,319,970	1,374,586	10,694,556
2033-2037	3,488,842	667,945	4,156,787
2038-2042	2,467,326	381,079	2,848,405
2043-2047	1,733,314	127,056	1,860,370
2048-2051	588,654	21,981	610,635
Total	<u>\$ 28,103,698</u>	<u>\$ 5,502,270</u>	<u>\$ 33,605,968</u>

The following information is a condensed statement of net position as of the end of the two most recent fiscal years for the Authority.

	<u>June 30, 2022</u>	<u>June 30, 2021</u>	<u>Increase (Decrease)</u>
Current assets	\$ 8,880,453	\$ 8,192,549	\$ 687,904

Note 18. Joint Ventures (continued)

Harrisonburg-Rockingham Emergency Communications Center. The City and Rockingham County (County) entered into an agreement that created the Harrisonburg-Rockingham Emergency Communications Center (HRECC), whereby the HRECC operates a joint emergency operations center and a joint two-way radio communications system. The City and County have an ongoing financial responsibility in that the City and County have agreed to equally provide any necessary funding for the HRECC. In fiscal year 2022, the City's contributions totaled \$3,237,100. These contributions are made from the General Fund. The City and County have equal undivided interests in any property purchased or used by the HRECC. The HRECC currently operates using certain capital assets of the City and County; however, the HRECC is responsible for the maintenance of these assets. To obtain a copy of the audited financial statements, contact the City of Harrisonburg Department of Finance, 409 South Main Street, Harrisonburg, Virginia 22801.

The following information is a condensed statement of net position as of the end of the two most recent fiscal years for the HRECC.

	<u>June 30, 2022</u>	<u>June 30, 2021</u>	<u>Increase (Decrease)</u>
Current assets	\$ 8,013,212	\$ 4,513,603	\$ 3,499,609

Total liabilities	<u>4,182,747</u>	<u>3,932,268</u>	<u>250,479</u>
Deferred inflows of resources	<u>3,959,657</u>	<u>30,859</u>	<u>3,928,798</u>
Net position	<u>\$ 9,339,558</u>	<u>\$ 8,794,664</u>	<u>\$ 544,894</u>

Note 19. Jointly Governed Organizations

Harrisonburg-Rockingham Social Services District (District). The District was established by the City and the County of Rockingham (County) to provide social services for the residents of the City and County. Both the City and County appoint one member each to the governing board. The District is a separate legal entity and is a discretely presented component unit of the County. The City contributed \$3,654,890 to the District in fiscal year 2022.

Shenandoah Valley Juvenile Center Commission (Commission). The Commission was established to provide a regional juvenile detention home. The Commission currently serves the Cities of Harrisonburg, Staunton, Waynesboro and Lexington, Virginia and the Counties of Augusta, Rockingham and Rockbridge, Virginia. The governing body is composed of one member appointed by each participating locality. The Commission is a separate legal entity with no participating locality having a voting majority. The Commission is perpetual and no participating locality has access to its resources or surpluses, nor is any participant liable for the Commission's debts or deficits. The City contributed \$228,304 to the Commission in fiscal year 2022.

Note 19. Jointly Governed Organizations (continued)

Middle River Regional Jail Authority (Authority). The Authority was established to provide a regional inmate facility for the member jurisdictions. The Authority currently serves the Cities of Harrisonburg, Staunton and Waynesboro, Virginia and the Counties of Augusta and Rockingham, Virginia. The governing body is composed of three members appointed by each participating locality. The Authority is a separate legal entity with no participating locality having a voting majority. The Authority is perpetual, and no participating locality has access to its resources or surpluses, nor is any participant liable for the Authority’s debts or deficits. In accordance with a service agreement, the Authority will divide its charges to member jurisdictions into an operating and debt service component which will be allocated annually based on the percentage of prisoners from each member jurisdiction over the previous three calendar years. The City and County’s annual contribution percentage will be combined based on the total number of prisoners between the two jurisdictions with the City and County each responsible for 50 percent of the contribution. The City contributed \$2,074,219 to the Authority in fiscal year 2022 of which \$1,784,901 was for operations and \$289,318 was for debt service.

Note 20. Related Organization

The City created the Harrisonburg Redevelopment and Housing Authority (Authority) to provide low-income housing to the residents of the City. The Authority is a separate legal entity and is governed by five commissioners who are appointed solely by the City Council. The City does not have an ongoing financial interest or responsibility to the Authority.

Note 21. Commitments

The Harrisonburg City School Board (School Board) entered into an agreement pursuant to the Virginia Public-Private Education and Infrastructure Act (PPEA) for the construction of a second high school. The PPEA agreement totals \$101.6 million, of which \$56 million had been expended as of June 30, 2022. This contract is a commitment of the General Capital Projects Fund and School Bond Capital Projects Fund and was financed through the issuance of bonds and currently available funds.

The City has a construction contract outstanding for the construction of a portion of the eastern source waterline project. The contract totals \$2.8 million and no funds had been expended as of June 30, 2022. The contract is a commitment of the Water Fund and is being financed through the issuance of bonds.

The following is a summary of significant encumbrances at June 30, 2022.

	General Fund	General Capital Projects Fund	Other Governmental Funds	Total
Street repaving	\$ 1,305,858	\$ -	\$ -	\$ 1,305,858
Fire truck	784,494	-	-	784,494
Replacement vehicles	428,713	-	-	428,713
Sidewalks, curbs and guttering replacements	413,835	-	-	413,835
Software renewal	139,733	-	-	139,733
Smithland athletic fields parking lot paving	109,715	-	-	109,715
Compensation and benefits study	107,700	-	-	107,700
MLK, Jr. Way bridge	-	1,137,349	-	1,137,349
Replacement school buses	-	-	406,919	406,919
Other purposes	914,497	261,785	-	1,176,282
Total encumbrances	\$ 4,204,545	\$ 1,399,134	\$ 406,919	\$ 6,010,598

Note 22. Transactions with Component Units

In fiscal year 2022, the City's General Fund made contributions to the School Board, a component unit, totaling \$36,077,547. Of this total, \$33,777,547 was made for the purpose of funding the School Board's operating budget while \$2,300,000 was made for capital construction purposes.

In fiscal year 2022, the Harrisonburg Electric Commission, a component unit, made contributions to the City's General Fund totaling \$5,200,000 for the purpose of funding the General Fund budget.

Note 23. Conduit Debt

From time to time, the City has issued Economic Development Authority Revenue Bonds and Redevelopment and Housing Authority Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial, commercial, public and private facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. The City, the State, nor any political subdivision thereof is obligated in any manner for the repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of June 30, 2022, there were four series of Redevelopment and Housing Authority Revenue Bonds outstanding, with an aggregate principal amount of \$21 million.

Note 24. Middle River Regional Jail Buy-In Agreement

The City, along with Rockingham County (County), entered into a buy-in agreement with Augusta County, the City of Staunton and the City of Waynesboro in which the City and County have agreed to purchase from the existing member jurisdictions the right to use capacity in the jail and become member jurisdictions of the Authority for \$21,543,588 effective July 1, 2015. The City is responsible for \$10,771,794 or 50 percent of the purchase price. The terms of the agreement required a payment of ten percent of the purchase price prior to June 30, 2015 with the balance of the purchase price payable in ten annual installments of \$1,076,298 commencing December 15, 2015. At June 30, 2022, the City has recorded an intangible asset for the purchased capacity of the jail in the amount of \$8,617,435 (net of accumulated amortization) and a liability of \$3,093,669 in governmental activities on the government-wide statement of net position.

Note 25. Hotel and Conference Center

The City has entered into a Memorandum of Understanding (MOU) and associated documents with the Harrisonburg Economic Development Authority (EDA), James Madison University (JMU), dpM Partners, LLC (Developer) and the James Madison University Foundation, Inc. (Foundation) for the construction of a hotel and conference center by the Developer on the campus of JMU. The Developer has financed and owns the hotel portion of the project while the Foundation financed the conference center portion of the project with the Developer retaining ownership of the conference center. The real estate occupied by the hotel and conference center will continue to be owned by JMU and leased to the Developer.

The City has entered into a support agreement with the EDA whereas the City has agreed to a non-binding moral obligation pledge to appropriate all tax and other revenue generated from the hotel and conference center to the EDA to the extent necessary to reimburse the Foundation for its annual debt payments and the EDA has a non-recourse note to pay to the Foundation such appropriated funds received from the City and generated by tax revenue from the hotel and conference center. The pledged tax revenue will be calculated every September 1. The agreement remains in force for a maximum of 21 years from the date of the Certificate of Occupancy. The City's obligation terminates upon the repayment of the Foundation's construction debt or if the hotel and conference center ceases operations for one year. The agreement does not legally obligate the City for any debt incurred by the Foundation. The conference center portion of the project cost an estimated \$11 million. For the year ended 2022, the City's reimbursement obligation to the EDA totaled \$1,046,414.

Note 26. Risk Management

The City is a member of the Virginia Risk Sharing Association (VRSA) for vehicles, property, inland marine, EDP, flood, general liability, line of duty, workman’s compensation, cybersecurity and boiler and machinery. Each VRSA member jointly and severally agrees to assume, pay and discharge any liability. The City makes contributions and assessments into a designated cash reserve fund. This reserve fund is used to pay claims and awards, as well as, expenses incurred by VRSA. In the event of a loss deficit and depletion of all available excess reserves, VRSA may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. However, since the inception of this insurance association, no additional assessments have been required. There has been no reduction in insurance coverage from coverage in the prior year. Insurance settlements have not exceeded insurance coverage for each of the past three fiscal years. The City insures its transit buses through the Virginia Transit Liability Pool.

The City is self-insured for health insurance purposes and has retained Anthem Blue Cross and Blue Shield to administer the program. The City currently reports these activities in the Health Insurance Fund, which is an internal service fund. This fund serves the City, primary government; Harrisonburg School Board and Harrisonburg Electric Commission, component units. Other external agencies also participate in the health insurance including Harrisonburg-Rockingham Emergency Communications Center, Harrisonburg-Rockingham Community Services Board, Harrisonburg-Rockingham Regional Sewer Authority, Harrisonburg-Rockingham Alcohol Safety Action Program, Harrisonburg Redevelopment and Housing Authority and the Massanutten Regional Library. This fund accounts for the health insurance activities of the aforementioned entities but does not constitute a transfer of risk from the City. Significant claims, over \$300,000, are covered by commercial insurance.

The City records an estimated liability for indemnity health care claims. Claims liabilities are based on estimates of the ultimate cost of reported claims, related claim adjustment expenses and an estimate for claims incurred but not reported (IBNR) based on historical experience. The following represents the change in approximate aggregate liabilities for the fund from July 1, 2020 to June 30, 2022:

<u>Fiscal Year</u>	<u>Beginning Liability</u>	<u>Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>Ending Liability</u>
2022	\$ 635,879	\$ 18,633,601	\$ 18,203,800	\$ 1,065,680
2021	629,264	17,633,090	17,626,475	635,879

Note 27. Contingencies

All major federal programs and certain other programs in which the City participates were tested, by our auditors, for compliance with applicable grant requirements pursuant to the provisions of the U.S. Office of Management and Budget’s Uniform Guidance. While no material matters of noncompliance were disclosed by the audit, the Federal Government may subject grant programs to additional compliance tests, which may result in disallowed expenditures. In the opinion of management, any future disallowance of current grant program expenditures, if any, would be immaterial.

The City may be subject to other legal proceedings and claims which arise in the ordinary course of business. In the opinion of management, the ultimate outcome of the claims and litigation, if any, will not have a material adverse effect on the City’s financial position.

The City has certain debt instruments subject to arbitrage rebate calculations. In the opinion of management, there will be no material amounts required to be rebated.

Note 28. Bonds Current Refunded and Defeased

In September 2021, as part of a \$159.4 million bond issue, the City issued \$50,160,000 in Series 2021A General Obligation Public Improvement and Refunding Bonds and Series 2021B Taxable General Obligation Public Improvement Refunding Bonds with a collective average interest rate of 0.98 percent to current refund certain outstanding debt. The net proceeds of \$59,575,651 (after payment of \$240,834 in issuance costs) were used to current refund the following bond issues:

Old Refunded Bonds	Average Interest Rate	Amount Refunded
Series 2010A Public Improvement General Obligation Bonds	3.48%	\$ 4,995,000
Series 2010B Public Improvement Refunding General Obligation Bonds	3.61%	13,190,000
Series 2011 Public Improvement and Refunding General Obligation Bonds	3.29%	13,830,000
Series 2012 General Obligation Bond	1.079%	3,542,000
Series 2015 General Obligation Bond	2.32%	4,899,000
Series 2017B General Obligation Bond	1.62%	5,930,000
Series 2020A General Obligation Bond	1.84%	10,415,000
Series 2020B Taxable General Obligation Bond	2.09%	2,435,000

The new bonds were issued to current refund the old bonds, and as a result, the old bonds were removed from the City's outstanding debt. The current refundings resulted in the reacquisition price exceeding the net carrying amount of the old bonds by \$643,644. This difference, reported in the accompanying financial statements as deferred outflows of resources, is being amortized through fiscal year 2035. The City current refunded the old bonds to reduce its total debt service payments over the next 14 years by \$5,262,560 and to obtain an economic gain (difference between the present value of the old and new debt service payments) of \$4,964,118.

Note 29. New Governmental Accounting Standards Board (GASB) Standards

The GASB issues new financial reporting standards on an ongoing basis. The following are summaries of new standards that may be applicable to the City. Management has not yet determined the effects, if any, these standards will have on the City's financial statements. The effective dates below have been updated based on GASB Statement No. 95, *Postponement of the Effective Date of Certain Authoritative Guidance* due to the COVID-19 pandemic.

In May 2019, the GASB issued Statement No. 91, *Conduit Debt Obligations*. This Statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practices with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The provisions of this Statement are effective for fiscal year 2023.

In March 2020, the GASB issued Statement No. 94, *Public-Private Partnerships and Availability Payment Arrangements*. This Statement improves financial reporting by addressing issues related to public-private and public-public partnership arrangements. The provisions of this Statement are effective for fiscal year 2023.

In May 2020, the GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements for government end users. The provisions of this Statement are effective for fiscal year 2023.

In June 2022, the GASB issued Statement No. 100, *Accounting Changes and Error Corrections*. This Statement enhances accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent and comparable information. The provisions of this Statement are effective for fiscal year 2024.

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*. This Statement updates the recognition and measurement guidance for compensated absences and amends certain previously required disclosures. The provisions of this Statement are effective for fiscal year 2025.

The plan years above are reported in the financial statements in the fiscal year following the plan year. For example, plan year 2020 information was presented in the fiscal year 2021 financial statements.

Current financial reporting standards require ten years of required supplementary information. However, fiscal year 2018 (plan year 2017) was the first year that information was available. Additional years will be included as they become available.

Note 1. Pension Plans

The Harrisonburg Electric Commission (HEC), a component unit, participates in the City's pension plan. The amounts provided for the primary government includes both the City and HEC's combined pension information.

Changes of Benefit Terms. There have been no significant changes to the Virginia Retirement System (VRS) benefit provisions since the prior actuarial valuation.

Changes of Assumptions. The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non 10 Largest) – Non-Hazardous Duty:

- Updated mortality table to RP-2014 projected to 2020
- Lowered retirement rates at older ages and changed final retirement from 70 to 75
- Adjusted withdrawal rates at each year age and service through 9 years of service
- Decreased disability rates
- Increased line of duty disability rates from 14% to 15%
- Decreased the discount rate from 7% to 6.75%

All Others (Non 10 Largest) – Hazardous Duty:

- Updated mortality table to RP-2014 projected to 2020
- Increased retirement rates at age 50 and lowered rates at older ages
- Adjusted withdrawal rates at each year age and service through 9 years of service
- Adjusted disability rates
- Decreased line of duty disability rates from 60% to 45%
- Decreased the discount rate from 7% to 6.75%

Teacher Cost-Sharing Pool:

- Updated mortality table to RP-2014 projected to 2020
- Lowered retirement rates at older ages and changed final retirement from 70 to 75
- Adjusted withdrawal rates at each year age and service through 9 years of service
- Adjusted disability rates
- Decreased the discount rate from 7% to 6.75%

Note 2. Other Postemployment Benefit Plans

VRS Group Life Insurance Program

The Harrisonburg Electric Commission (HEC), a component unit, participates in the City's Group Life Insurance plan. The amounts provided for the primary government includes both the City and HEC's combined OPEB information.

Changes of Benefit Terms. There have been no significant changes to the Virginia Retirement System (VRS) benefit provisions since the prior actuarial valuation.

Changes of Assumptions. The changes in actuarial assumptions used are substantially the same as described in Note 1.

Note 2. Other Postemployment Benefit Plans (continued)

VRS Health Insurance Credit Program – Teacher Cost-Sharing Pool

Changes of Benefit Terms. There have been no significant changes to the Virginia Retirement System (VRS) benefit provisions since the prior actuarial valuation.

Changes of Assumptions. The changes in actuarial assumptions used are substantially the same as described in Note 1.

VRS Health Insurance Credit Program – Nonprofessional Employees

Changes of Benefit Terms. There have been no significant changes to the Virginia Retirement System (VRS) benefit provisions since the prior actuarial valuation.

Changes of Assumptions. The changes in actuarial assumptions used are substantially the same as described in Note 1.

Local Health Insurance Program

There are no assets accumulated in a trust to pay the related benefits of this program.

Changes of Benefit Terms. There have been no significant changes to the benefit provisions since the prior actuarial valuation.

Changes of Assumptions. The following changes were made to the actuarial assumptions and methods used in the June 30, 2021 actuarial valuation for the City and School Board:

- Decreased the discount rate from 2.79% to 2.18% based on the S&P Municipal Bond 20 Year High Grade Rate Index.
- The assumed healthcare cost trend rate was changed from 7.5% grading uniformly to 6.75% over three years and following the Getzen model thereafter until reaching an ultimate rate of 3.94% in the year 2075 to 6.25% grading uniformly to 5.75% over two years and following the Getzen model thereafter until reaching an ultimate rate of 4.04% in the year 2075.
- Mortality, retirement, withdrawal and disability assumptions were changed to be consistent with the most recent VRS report for GASB 68 issued in July 2020.

**OTHER
SUPPLEMENTARY INFORMATION**

THIS PAGE LEFT BLANK INTENTIONALLY

Nonmajor Governmental Funds

Special Revenue Funds

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Community Development Block Grant Fund - This fund accounts for the administration of the community development block grant funds received from the Federal Government.

School Transportation Fund - This fund accounts for the operations of the City's school bus system. Financing is provided by payments for services from the Harrisonburg City School Board. Funding is a committed revenue source and is used only for the operations of the school bus system.

Business Loan Program Fund - This fund accounts for the administration of the Harrisonburg Business Loan Program which is a revolving loan program. This program provides microloans to qualifying local businesses. Financing originally has been provided by the Federal Government along with additional funding from the City.

Internal Service Funds

Internal service funds are used to account for the financing of goods and services provided by one department or agency to other departments or agencies of the government and to other governmental units, on a cost reimbursement basis.

Central Garage Fund - This fund accounts for the operations of the City's central garage. Financing is provided by charges to other departments and agencies for services rendered and transfers from other funds for overhead costs.

Central Stores Fund - This fund accounts for the operations of the City's central stores. Financing is provided by charges to other departments and agencies for the sale of materials and supplies and transfers from other funds for overhead costs.

Health Insurance Fund - This fund accounts for the health insurance premium collections and claims payments related to the operation of the City's self-insured health insurance program. Financing is provided by premiums paid by departments, employees and organizations which participate in the insurance plan.

Discretely Presented Component Unit – School Board

General Fund

School Fund - This fund accounts for the operations of the School Board's elementary, middle and high schools not accounted for and reported in other funds.

Special Revenue Fund

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes other than debt service or capital projects.

School Nutrition Fund - This fund accounts for the operations of the School Board's centralized cafeterias.

School Activity Fund - This fund accounts for the financial resources received from extracurricular school activities, such as from entertainment, athletic contests, club dues and from all school sponsored activities that involve school personnel, students or property.

Fund balances at end of year	<u>\$ 3,524,890</u>	<u>\$ 4,819,932</u>	<u>\$ 757,942</u>	<u>\$ 5,300,000</u>	<u>\$ 14,402,764</u>

CITY OF HARRISONBURG, VIRGINIA
DISCRETELY PRESENTED COMPONENT UNIT - SCHOOL BOARD
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
For the Year Ended June 30, 2022

Exhibit D-4

Total net change in fund balances of governmental funds (Exhibit D-3) \$ 7,266,310

Amounts reported for governmental activities in the statement of activities (Exhibit 2) are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense exceeded capital outlay expenditures

Capital outlay expenditures	\$	2,567,514	
Depreciation expense		<u>(2,850,994)</u>	
Net adjustment	\$	<u>(283,480)</u>	(283,480)

The transfer of capital assets between the primary government and the School Board affects only the statement of activities. These transfers do not have an effect on current financial resources and, therefore, are not reported in governmental funds. 3,600,547

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt.

Long-term debt incurred	\$	(1,211,381)	
Principal payments		<u>156,214</u>	
Net adjustment	\$	<u>(1,055,167)</u>	(1,055,167)

Certain expenses reported in the statement of activities that do not require the use of current financial resources are not reported as expenditures in governmental funds. This amount is the net change in these expenses. (30,899)

Governmental funds report employer OPEB and contributions as expenditures. However, in the statement of activities the cost of OPEB and pension benefits earned, net of employee contributions, are reported as OPEB and pension expense. This is the amount by which employer and nonemployer OPEB and pension contributions exceeded OPEB and pension expense.

Employer OPEB contributions	\$	1,635,406	
Employer pension contributions		7,816,942	
Nonemployer pension contributions		308,660	
OPEB expense		(2,075,944)	
Pension expense		<u>(1,838,662)</u>	
Net adjustment	\$	<u>5,846,402</u>	<u>5,846,402</u>

Change in net position of governmental activities (Exhibit 2) \$ 15,343,713

STATISTICAL SECTION

This part of the City's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, notes disclosures and other supplementary information says about the City's overall financial health.

Financial Trends. Tables 1 through 5 contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity. Tables 6 through 9 present information to help the reader assess the factors affecting the City's ability to generate property tax revenue which is the City's most significant local revenue source.

Debt Capacity. Tables 10 through 12 present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future. The City does not have any overlapping debt.

Demographic and Economic Information. Tables 13 and 14 offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and to help make comparisons over time with other governments.

Operating Information. Tables 15 through 17 contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.

Sources: *Unless otherwise noted, the information in these tables is derived from the annual comprehensive financial reports for the relevant year.*

Notes: The City implemented GASB Statement No. 68, *Accounting and Financial Reporting for Pensions-an amendment of GASB Statement No. 27* in fiscal year 2015. The City implemented GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* in fiscal year 2018. The City implemented GASB Statement No. 87, *Leases* in fiscal year 2022. Prior year information has not been restated.

^aFor 2015, the changes in public works and steam plant/sanitation activity charges for services and expenses reflected the reclassification of refuse collection, recycling and landfill activities.

^bFor 2021, the increase in the community development activity reflected community and business assistance payments provided by the City from its federal CARES Act funding.

^cFor 2016, the changes in steam plant/sanitation activity expenses reflect the discontinued operations of the resource recovery facility.

^dFor 2015, the decrease in capital grants and contributions reflected decreasing right-of-way and easement purchases for the Reservoir Street project which were eligible for state funding.

^eFor 2017, the increase in capital grants and contributions reflected increased state and federal funding for several capital projects including the Reservoir Street project.

^fFor 2019, the decrease in capital grants and contributions reflected decreased state and federal funding for several completed capital projects including the Reservoir Street and MLK, Jr. Way projects.

^gFor 2014, 2017 and 2021, the increase in capital grants and contributions reflected state and federal funding from the purchase of new transit buses and other public transportation projects.

^hFor 2020, the increase in unrestricted grants and contributions reflected funding provided to the City through the federal CARES Act.

ⁱFor 2014, the City agreed to sell the resource recovery facility to James Madison University. This is the net result of an impairment to the resource recovery facility.

^jFor 2015, the City recorded an additional impairment loss on the resource recovery facility for decommissioning costs.

Notes: Any significant increases or decreases for 2022 are explained in Management's Discussion and Analysis.

^aFor 2018 and 2021, the increase in general fund assigned fund balance was the result of approximately \$1.4 million and \$3 million, respectively, of fund balance used to balance the subsequent year's budget.

^bThe increases and decreases in other governmental funds' restricted fund balance are the result of bond proceeds that are used for various capital project purposes.

Notes: The City implemented GASB Statement No. 87, Leases in fiscal year 2022. Prior year information has not been restated. Any significant increases or decreases for 2022 are explained in Management's Discussion and Analysis. Any significant increases or decreases in general property taxes and other local taxes revenue are provided in Table 5. Any significant increases or decreases in long-term debt issued or incurred are provided in Table 10.

^aFor 2015, the change in charges for services and public works expenditures was the result of the reclassification of refuse collection, recycling and landfill activities.

^bFor 2020, the increase in intergovernmental revenues reflected funding provided to the City through the federal CARES Act.

^cFor 2015, the City made its first payment associated with the Middle River Regional Jail buy-in agreement.

^dFor 2021, the increase in community development expenditures reflected community and business assistance payments provided by the City from its federal CARES Act funding.

Notes: Any significant increases or decreases for 2022 are explained in Management's Discussion and Analysis.

^aFor 2015, 2016, 2017, 2018 and 2020, the increases in real estate taxes were the result of an increase in the real estate tax rate.

^bFor 2015, the increase in personal property taxes was the result of an increase in the personal property tax rate.

^cFor 2020, the decrease in tax revenue was the result of negative economic effects of the COVID-19 pandemic.

^dFor 2018, the increase in consumer utility taxes was the result of an increase in the tax rates.

^eFor 2015, the increase in motor vehicle license taxes was the result of an increase in the tax rates.

^fFor 2018, the increases in hotel and motel room taxes and restaurant food taxes was the result of an increase in the tax rates.

^bIn 2015, the City discontinued operations at the resource recovery facility.

COMPLIANCE SECTION

This part of the City's annual comprehensive financial report is intended to demonstrate the City's compliance with various state and federal legal matters, as well as, compliance with federal grant funding requirements. It is prepared in conformity with the provisions of the U.S. Office of Management and Budget's Uniform Guidance.

THIS PAGE LEFT BLANK INTENTIONALLY

INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Members of City Council
City of Harrisonburg, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns* and the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Harrisonburg, Virginia (the “City”), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the City’s basic financial statements, and have issued our report thereon dated December 6, 2022.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City’s internal control. Accordingly, we do not express an opinion on the effectiveness of City’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. **Given these limitations we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.**

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. **The results of our tests did not disclose any instances of noncompliance that are required to be reported under *Government Auditing Standards*.**

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY
THE UNIFORM GUIDANCE**

To the Honorable Members of City Council
City of Harrisonburg, Virginia

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited City of Harrisonburg, Virginia's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of City of Harrisonburg, Virginia's major federal programs for the year ended June 30, 2022. City of Harrisonburg, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, City of Harrisonburg, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of City of Harrisonburg, Virginia and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of City of Harrisonburg, Virginia's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to City of Harrisonburg, Virginia's federal programs.

Auditor's Responsibility for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on City of Harrisonburg, Virginia's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about City of Harrisonburg, Virginia's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding City of Harrisonburg, Virginia's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of City of Harrisonburg, Virginia's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of City of Harrisonburg, Virginia's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. **Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.**

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Cash and Investment Laws
Conflicts of Interest Act
Local Retirement Systems
Debt Provisions
Procurement Laws
Governor's Opportunity Funds
Uniform Disposition of Unclaimed Property Act
Stormwater Utility Program

State Agency Requirements

Education
Highway Maintenance Funds
Fire Programs Aid to Localities

FEDERAL COMPLIANCE MATTERS

Compliance Supplement for Single Audits of State and Local Governments

Provisions and conditions of agreements related to federal programs selected for testing.

CITY OF HARRISONBURG, VIRGINIA

**SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2022**

A. SUMMARY OF AUDITOR’S RESULTS

1. The auditor’s report expresses an **unmodified opinion** on the financial statements.
2. **No significant deficiencies** relating to the audit of the financial statements are reported in the Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*.
3. **No instances of noncompliance** material to the financial statements were disclosed during the audit.
4. **No significant deficiencies** relating to the audit of the major federal award programs were reported in the Independent Auditor’s Report on Compliance For Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance.
5. The auditor’s report on compliance for the major federal award programs expresses an **unmodified opinion**.
6. The audit disclosed **no audit findings** relating to major programs.
7. The programs tested as major programs include:

<u>Name of Program:</u>	<u>Assistance Listing #</u>
Child Nutrition Cluster	10.553, 10.555, 10.559
CDBG Entitlement Grants Cluster - Community Development Block Grant - Entitlement	14.218
Federal Transit Cluster – Federal Transit – Formula Grants	20.507
COVID-19 – Coronavirus State and Local Fiscal Recovery Funds	21.027
COVID-19 – Governor’s Emergency Education Relief Fund	84.425C
COVID-19 – Elementary and Secondary School Emergency Relief	84.425D
COVID-19 – American Rescue Plan – Elementary and Secondary School Emergency Relief	84.425U

8. The **threshold for** distinguishing Type A and B programs was **\$750,000**.
9. The City was determined to be a **low-risk auditee**.

B. FINDINGS – FINANCIAL STATEMENT AUDIT

None.

C. FINDINGS AND QUESTIONED COSTS – MAJOR FEDERAL AWARD PROGRAMS AUDIT

None.

D. FINDINGS – COMMONWEALTH OF VIRGINIA

None.

CITY OF HARRISONBURG, VIRGINIA
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
June 30, 2022

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the City of Harrisonburg, Virginia and its component units, and is presented on the modified accrual basis of accounting. The information contained in this schedule is presented in accordance with the requirements of the U.S. Office of Management and Budget’s Uniform Guidance. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the general-purpose financial statements.

Note 2. Indirect Cost Allocation Rate

The City of Harrisonburg has not elected to use the de minimis indirect cost allocation rate.

Note 3. Food Distribution

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed as determined by the U.S. Department of Agriculture. At June 30, 2022, the School Board, a component unit, had food commodities totaling \$20,304 in inventory.

Note 4. Loan Programs

Included in prior year schedules were loan proceeds obtained through the Virginia Water Supply Revolving Fund in the total amount of \$1,136,000. The following is the federal award program and the outstanding balance on the loan at June 30, 2022.

<u>Program Title</u>	<u>Assistance Listing Number</u>	<u>Outstanding Loan Amount</u>
Capitalization Grants for Drinking Water State Revolving Funds	66.468	\$ 681,600
