☒ Male

What is your age?

☒ 30-40 years old

Are you reapplying for a current position you hold? *

☒ No

Which Boards would you like to apply for?

Planning Commission (PC): Submitted

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board or commission?

Over the past few years, I have grown more and more passionate about our local government. I believe that Harrisonburg is a great city and has the ability to continue growing into a sustainable and equitable place for future generations. After serving on the TSAC committee I see the difference that can be made from participating in our local government and would like to share my experience and knowledge to help our city to continue to grow in the best way possible.

What other interests or concerns do you have regarding the community?

I am interested in transportation planning and providing our city's citizens with alternatives to driving. Designing our city for density is a great way to promote alternative modes of transportation and give people the ability to live without dependance on a car. I have also loved seeing our downtown grow and flourish with the help of HDR. It has been amazing to see the impact of the revitalization on the community and how everyone has come together to help bring new business and growth back to our city. The effort our community put into the Levitt Amp series concert to get the grant, as well as the support for Strong Towns Strongest Town contest give me great hope for the future of the city.

What relevant experience or education do you have to this board or commission?

I have a background in mechanical and civil engineering and currently work as an Architectural Engineer helping architects across the Northeast meet their building facade design goals. I have also served almost 2 years on the TSAC commission helping give guidance on how we can update our public infrastructure to be as safe and effective as possible, while staying within budget and building constraints. I am passionate about our city and growing it in a sustainable way.

Please list any past or present community involvement e.g. City Council, Boards and Commissions, Citizen Academy, etc. in Harrisonburg or elsewhere:

Current TSAC member.
