She stated they have worked tirelessly on this project, with special recognition to Dr. de Fazio of James Madison University (JMU) and Steven Thomas of the Northeast Neighborhood Association (NENA). She provided the history of how the project and committee formed and stated the committee has given Charlotte Harris dignity and a voice that was taken away from her on March 6, 1978. She stated it is respectfully asked that the dedication be watched via live stream to ensure a large group doesn't gather.

Vice Mayor Romero stated it will be a historical day and acknowledged the people involved in this project and extends Council's gratitude to Mr. Thomas, JMU,

Rockingham County and the city for their support. He stated it will be a day that will be remembered, and he will be in attendance.

Council Member Jones stated looks forward to attending and stated since 2012 there have been a lot of historical markers and historically significant findings that have happened in Harrisonburg. Council Member Baugh stated he echoes and endorses all the comments made and thanked everyone that was involved in making this happen.

3.c. EMU and JMU update on COVID-19 response

President Susan Huxman, Eastern Mennonite University, thanked Council for inviting her and provided updates as to where EMU is with the Coronavirus, faculty, and students. She highlighted the following:

- EMU is involved in the Council of Independent Colleges of Virginia, of which there are 28 colleges involved, who regularly share what is being done, why is it being done, what is working and what isn't working.
- EMU has been involved in Be Vigilant for the Valley that brings people together from City Council and Profit and Non-profit sectors.
- Classes were started on-line on August 25, 2020 due to positive testing amongst some staff.
- In-person classes started on September 3, 2020 under the High-Flex modality - on-line and in-person at the same time for options to the students.
- 2 active cases and 7 students quarantined currently.
- Things learned: Testing should have happened before students arrived,
- Additional protocols: revised eating and dining patterns, with grab and go meals, outside places to sit and eat, and tents, which all discourages large group gatherings without masks.
- 25 off-site quarantine beds, 26 on-site isolation beds, and 40% of residential students are in single rooms.
- Daily symptom tracker for all students to complete
- Would like to see a fast-tests available

Council Member Jones thanked President Huxman for the update and the great support that she has always put behind diversity.

Mayor Reed asked about the home-coming activities. President Huxman stated there are home-coming activities starting on October 16, which will all be virtual but fun. Mayor Reed stated Council wanted to make sure the community is updated on

what is going on at both universities and appreciates President Huxman's leadership and all they are doing to keep everyone safe.

President Jon Alger, James Madison University, thanked Council for their time, and stated we all want to be good partners to the city and community every step of the way. He stated JMU is guided by two over arching principals: maintaining public health first while maintaining the academic progress for the students. He shared some of the things JMU has done for the local community during the pandemic. He highlighted what JMU has been doing as follows:

- Daily briefings with medical team
- Constant communications with public health officials
- On-line classes for 4 weeks
- De-densified the campus temporarily
- Public Dashboard updated daily
- Daily student self-screenings
- Protocols of number of students allowed to gather, must wear masks and social distance.
- 600 isolation beds and 1400 quarantine in place beds
- Surveillance testing
- Landlord outreach
- Enhancements to dining facility and additional robot deliveries

Dr. Alger stated the medical system is working well, the vast majority of student cases have been either asymptomatic or very mild. He stated after the initial spike in cases the numbers are decreasing significantly with over 1300 students in the recovered category. He stated he is not aware of community spread beyond the student body.

Dr. Tim Miller, JMU, stated he is aware student behavior is a concern, but the vast majority of students have listened and have been doing the right things. He stated there have been 290 students with violations so far this semester who will be handled through due process. He thanked the Harrisonburg Police Department for their communications and assistance and for allowing him to ride along with an officer.

Dr. Blyer, JMU, stated students are fairing well medically, and did not affect the hospital. She stated the health center is increasing their hours of availability and increasing testing availability.

Mayor Reed asked for additional information on the surveillance testing. Dr. Miller stated it will be a random selection of students and will be mandatory. Mayor Reed asked about the challenges for those living off campus. Dr. Miller stated he is waiting for feedback from the landlords and on his ride along with HPD he had never seen such a quiet night in a college town. He stated Dr. Alger had sent a strong letter to students that day and a strong social media post about gatherings and have seen

very few large events. Further discussion took place regarding gatherings of students and case numbers.

Vice Mayor Romero asked about the health safety for staff. Dr. Blyer stated JMU has spent a lot of time on this and addressed all the concerns of staff and provided staff with all the equipment they needed for both on-line and in-person classes.

Council Member Jones stated from an economic standpoint the students are important to the city, and leaders are still allowing and encouraging students to contribute to the greater community. He stated he appreciates the open lines of communications and partnership with the city.

Mayor Reed stated in order for us to get through this we must all work together and we must all be responsible.

7.b. City Council and Staff

Council Member Hirschmann stated he has received complaints of individuals not taking care of their yards and wanted to know if there is proactive enforcement for violations of City Code. Eric Campbell, city manager, asked Council Member Hirschmann to provide him with the address and he will have staff take a look.

Council Member Baugh stated there are all sorts of debates going on but if anything is clear it's that you can have COVID-19 and be very contagious without knowing it but wearing a mask drastically reduces your ability to infect others. Wear your darn masks.

Eric Campbell, city manager, stated there will be free COVID-19 testing on Friday September 25, 2020 from 7:30 am to 10:30 am at Hillendale Park, it will be by appointment only and to schedule an appointment please call the Harrisonburg Rockingham Health Department at (540) 574-5102 by 2:00 pm on September 24, 2020.
