- limiting the site to the two proposed cabins only,
- the cabins cannot be occupied on a long term basis, and
- staff shall be authorized to review any complaints received regarding the property and based on their finding may require the applicant to return to Planning Commission and City Council for a public hearing to re-examine the use of the property. Such re-evaluation may result in additional conditions being placed on the use or revocation of the special use permit.

Wireless Telecommunications Facilities Amendments & B-1 Modification

To provide opportunities to supply wireless telecommunications services in the City with minimal negative impact to the community while respecting both residential and commercial neighborhoods.

Existing Code Provisions

Zoning Districts	By-Right	Special Use Permit
B-1		Telecommunications not located in an enclosed structure and communications facilities for public safety up to 200 ft. in height
B-2		Communications towers up to 125 ft. and communications facilities for public safety up to 200 ft. in height
M-1	Communications towers not more than 125 ft. in height	Communications towers over 125 ft. and communications facilities for public safety up to 200 ft. in height

Proposed Code Provisions

Zoning Districts	By-Right	Special Use Permit
All residential districts and MX-U	Not Permitted.	Concealed facilities, industrial microcells, DAS, and macrocells. Towers are not permitted.
B-1 & B-2	Concealed facilities, industrial microcells, DAS, and macrocells. Towers are not permitted.	All facilities not permitted by-right (including min. setback and max. height regulations)
M-1	All wireless facilities not to exceed 125 ft. in height	All facilities not permitted by-right (including min. setback and max. height regulations)

Application Fees:

- **Administrative Review/Approvals**
Proposed fee = \$175

- **SUP Reviews**

Standard SUP fee = \$375 + \$30/acre

Unrelated to the Wireless Telecommunications Facilities amendments, staff has proposed modifying the B-1 uses permitted by right section of the ZO Section 10-3-84 by adding a new set of uses as follows:

- (13) Radio and television stations and studios or recording studios. All antennas and satellites and associated equipment shall be screened.**

- the proposed alternative would better achieve the walkable, pedestrian and bicycle-oriented environment the City desires;
- the particular conditions of the site and surrounding street network would allow the proposed alternative without causing undue inefficiencies for service vehicles, nor an excessive reduction in pedestrian safety due to pedestrian-vehicle movement conflicts; and
- the proposed alternative would better balance the needs of pedestrians and vehicles, and better achieve the goals of the comprehensive plan.”
