2045 Long Range Transportation Plan Visioning Survey

Transportation needs in the Harrisonburg Rockingham region are changing. The Harrisonburg Rockingham Metropolitan Planning Organization's (HRMPO) 2045 long range transportation plan (LRTP) will guide transportation investments over the next 25 years to support the needs of our region and its future growth.

Community members across the City of Harrisonburg, the towns of Bridgewater, Dayton, and Mt. Crawford, and portions of Rockingham County are invited to share their current transportation needs and their vision for the future.

Fill out our online visioning survey between February 1 and March 2, 2022.

Tune into our webinar on February 16, 2022 at 7 p.m. ET or watch the replay on-demand.

Sign up to receive regular updates on the LRTP.

The Visioning Survey is Phase One of the LRTP process. The feedback gathered will be used to determine which transportation projects are considered in the LRTP and to develop the evaluation criteria for projects.
