Why do you wish to serve on a board or commission?

I graduated from JMU and since then have moved back to Harrisonburg on two different occasions - I love this city and this place. As a former JMU student and as a current full-time employee in the city I have two perspectives on this town and what it has to offer its residents. I believe that I can have a positive influence while serving on a committee and indeed desire to do so.

What relevant experience or education do you have to this board or commission?

I completed a Masters Degree at the American University in Natural Resources and Sustainable Development and have worked with an international nonprofit as a Sustainable Curriculum Advisor at farming school in Uganda and as a Learning Associate for the international development organization SNV USA.

In both classes and at work I engaged with critical assessments of planned development projects as they effect both ecology and society.

What other interests or concerns do you have regarding the community?

With the boom in housing development in the area I am concerned with maintaining a robust local ecology that feeds into the success of the wider valley's agricultural system.

I am also concerned with disability rights and access issues - I've noticed sidewalks impeded by telephone poles limiting mobility for the wheelchair-bound.

Please list any past or present community involvement e.g. City Council, Board and Commissions, Citizen Academy, etc. in Harrisonburg or elsewhere:
