50+ years old

Are you reapplying for a current position you hold? *

No

Which Boards would you like to apply for?

Environmental Performance Standards Committee (EPSAC): Submitted

Interests & Experiences

David Powell

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board or commission?

I am interested in using my years of experience in the environmental field to assist with encouraging environmental stewardship in my community.

What other interests or concerns do you have regarding the community?

I am interested in encouraging more use of solar energy in the community.

What relevant experience or education do you have to this board or commission?

I hold a Masters Degree in Environmental Health Administration. After working for other consulting firms, I started my own environmental consulting firm in Richmond Va. in 1994. I worked with land development issues including wetlands, contamination studies, and environmental due diligence of properties. I then became involved with industrial compliance auditing and then with international environmental management systems. In recent years, I have been working with an international oversight board to ensure the validity of voluntary environmental management system certification programs. This has brought me broad experience stateside and globally regarding environmental programs in industry as well as in municipal and state-run organizations.

Please list any past or present community involvement e.g. City Council, Boards and Commissions, Citizen Academy, etc. in Harrisonburg or elsewhere:

I work as a contractor for the ANSI National Accreditation Board (ANAB), and while I have not yet volunteered on any local boards, am hoping to do more of that as I am getting to retirement.
