Why do you wish to serve on a board or commission?
I am very interested in urban forest cover and native species. As an archaeologist, I've had the opportunity to study past land cover and also see the impacts of deforestation on stormwater run-off and erosion. I think there are exciting possibilities for tree planting in the City, both to increase property values and provide important ecosystem services. There are also educational opportunities for tree selection and care.

What relevant experience or education do you have to this board or commission?
See above. I have doctoral training in landscape analysis, ecological processes, and native species.

What other interests or concerns do you have regarding the community?
Many things, especially cultural resources.

Please list any past or present community involvement e.g. City Council, Board and Commissions, Citizen Academy, etc. in Harrisonburg or elsewhere:

I have directed archaeological projects for the City of Harrisonburg and worked with the Northeast Neighborhood Association.

-Please return completed application to the City Manager's Office-

Applicants are encouraged to attach a resume or other supporting information that may be helpful to Council in considering their application.
