RE: Street Naming for New Street in Parkview Section of Harrisonburg

**Summary:** As part of the Fire Station #5 project, the city will be constructing a new public roadway upon which the new station will be located. The purpose of this request is for City Council to consider and take action on a recommendation to formally name the street Integrity Drive. The proposed roadway is identified in attachment A.

**Background:** Staff identified during early stages of planning that a new public street on the subject property would be appropriate to ensure safe access to the fire station and facilitate the efficient movement of apparatus into and out of the proposed fire station, avoiding direct discharge onto Mt. Clinton Pike from the front ramp. The roadway would also support future development of the remaining parcels on the subject land owned by the city.

Staff work closely with the various departments who have a role in vetting street names and the proposed street name conforms with all requirements, including 9-1-1 services. The selection of Integrity Drive aligns with one of the identified core values of the Fire Department.

**Key Issues:** The naming of the street will permit affected entities to properly identify the correct address of the new fire station, and adjacent properties.

**Environmental Impact:** None

**Fiscal Impact:** None

**Prior Actions:** None
