

## Social BBQ – Staff Comments Regarding Smoker Location

### COMMUNITY DEVELOPMENT

- METAL BUILDING: Requests/concerns noted.
- CEMENT BARRICADES: The barricades will be movable. They will be similar to how Jack Brown's has created a perimeter around their outdoor seating: cement poured in 5 gallon buckets with a metal post positioned in the center. From there, we plan to use rope or chain to string together the metal posts.
- PER SECTION 10-3-29 (b): We will pay/cooperate with any concerns/requests regarding this issue.

### FIRE DEPARTMENT

- CODE REQUIREMENTS: Requests/concerns noted.
- SMOKE CONCERN: Per reviews from the smoker company, the smoke emission is minimal and doesn't cause concern for area complaints.
- POLICE DEPARTMENT: Preference of Option B noted. The barricades will be movable. They will be similar to how Jack Brown's has created a perimeter around their outdoor seating: cement poured in 5 gallon buckets with a metal post positioned in the center. From there, we plan to use rope or chain to string together the metal posts.
- PUBLIC WORKS DEPARTMENT: Requests/Concerns noted.
