Thanh – Since I do not have a color copied, have scanned five color photos (two southbound and three northbound) at the 243 Interchange. The sign shown was mounted by Eddie Edwards Signs. It is a 64 sq. ft. sign on a crane with a top of sign height of 100’.

Let me know if you have questions on the pictures or need additional information.

Todd

Good afternoon, Todd,

We received your letter requesting an amendment to Ordinance Section 11-7-8, Interstate Overlay District and will begin working on this.

When we met on October 26, 2017 you had suggested that someone may have done a balloon test and taken photos to illustrate sign height(s). Did you find out if this had been done, and if yes, would could you share those photos with me/Community Development?

Thank you.
