Why do you wish to serve on a board or commission?

I teach environmental geology courses such as hydrogeology and engineering geology at JMU. I would like to contribute to the city as an environmental geologist. I am also interested to learn about existing environmental problems that I would like to turn into research projects for my students. I already have two of my students working on sinkholes in the Harrisonburg area.

What relevant experience or education do you have to this board or commission?

I have a PhD in applied geology with main concentration on engineering geology, which is application of geology to civil engineering.

What other interests or concerns do you have regarding the community?

My main concern for the city is its location in the Shenandoah valley where sinkholes are common problems. Currently, my students are studying geologic controls leading to sinkhole development.

Please list any past or present community involvement e.g. City Council, Board and Commissions, Citizen Academy, etc. in Harrisonburg or elsewhere:

I have never been involved in such committees.

-Please return completed application to the City Manager's Office-

Applicants are encouraged to attach a resume or other supporting information that may be helpful to Council in considering their application.
