City of Harrisonburg Community Development Attn: Adam Fletcher, Director 409 South Main St. Harrisonburg, VA 22801

Re: Change of Zoning District (Rezoning) Application and Special Use Permit Application Tax Map Parcels/Owners:

028-G-1/MG Harrisonburg LLC 028-G-2/Charles Edwin Estes Irrevocable Grandchildren's Trust Address: 241 Blue Ridge Drive

Dear Mr. Fletcher,

Please accept the attached Special Use Permit Application and Concept Plan dated 11-25-20 (Exhibit 'A') for the proposed "Two41 Central" development located on Blue Ridge Drive. This application is being submitted concurrently with a rezoning application for the site for R-5 zoning. The intent of the application is to allow multi-family dwellings that include more than 12 units per building.

Parcel 028-G-1 is currently zoned as R-1 but has been developed and used as a commercial truck terminal since 1975. Parcel 028-G-2 is the adjacent vacant parcel. The Property is located at the intersection of Blue Ridge Drive and Country Club Road. East Market Street is to the west of the property, and railroad tracks are along the southern property boundary.

As planned "Two41 Central" will revitalize the approximate 7 acre tractor-trailer terminal to a 142-unit multi-family residential development featuring an on-site community center with swimming pool and other recreational amenities. Surface parking is proposed to be relegated away from the street. Streetscaping including sidewalks and street trees are proposed. The concept elevations are attached as Exhibit B.

Bluestone Land and its affiliates (Pinnacle Construction & Development Corp. and Park Properties Management Co LLC) have extensive experience in development, construction, and property management of multi-family residential and commercial properties throughout the

Commonwealth of Virginia, including the Colonnade in Harrisonburg (mixed-use commercial/residential) and Preston Lake Apartments currently under construction off Stone Spring Road in Rockingham County.

When developing the plan for Two41 Central, the intent was to respond to the 2018 Comprehensive Plan's vision for urban density and market demands, while respecting the existing terrain. The Comprehensive Plan designates this property as Medium Density Mixed Residential that anticipates approximately 20 dwelling units per acre. This planned development would revitalize the current use as a truck terminal by providing more vibrant, high quality, higher density housing which will include on-site professional management.

Per the R-5 zoning section 10-3-55.4 (1), multi-family dwellings of more than 12 units are allowed with a special use permit as long as they meet the requirements set forth in section 10-3-55.6 (e) (1-4). Section 10-3-55.6 (e) 1 requires that the proposed site is located near an existing development that may be developed as multi-family per the Comprehensive Plan. The existing development directly adjacent to the site (to the south) is identified as "Medium Density Residential" in the Comprehensive plan, which allows for Multi-Family development. Further, the Comprehensive Plan designates parcels 028-G-1 and 028-G-2 as Medium Density Mixed Residential.

Section 10-3-55.6 (e) (2) requires that the applicant has demonstrated that adequate vehicular, transit, pedestrian, and bicycle facilities either currently serve the site, are planned by a City or State plan, are proposed by the applicant, or are not needed because of special circumstances of the proposal. As stated above, the concurrently submitted rezoning application and associated proffered conditions propose road improvements to the adjacent streets (Blue Ridge Drive and Country Club Road) along with sidewalk and shared use trails along the project frontage. The proffers also describe a 10' shared use path connection to the western boundary of the property which will allow for a connection to the proposed VDOT East Market Street Improvement project. The VDOT improvement project will include traffic light improvements and pedestrian and bicycle crossings that will allow for the safe crossing of East Market Street. This connection will be utilized by both the existing neighborhood and future residents of Two41 Central when walking to the businesses located on the west side of East Market Street.

Section 10-3-55.6 (e) (3) requires that the proposed development's design is compatible with adjacent uses. The proposed development on this transitional parcel is compatible with the surrounding mix of residential uses. Unlike its current non-conforming use as a truck terminal, the development provides residential one, two, and three-bedroom units. The proposed buildings at the corner of Blue Ridge Drive and Country Club Road (Building Types 1 and 2) are designed with pitched roofs with three story elevations at the street frontage. The four- story building adjacent to East Market Street (Building Type 3) and served by an elevator is approximately 14 feet below the road elevation of East Market Street. When taking into account that the 4 story building roof is flat and its lower elevation on the site, translates to a lower total height than three-story structures (Types 1 and 2). Please refer to the attached exhibit 'B' that depicts building height relationships along Blue Ridge Drive. Although proposed building heights are marginally higher than the maximum building height allowed in the adjacent R-1 district, the location of the site (at the bottom of the hill), coupled with proposed street trees along both road

frontages (Proffer #10) will minimize visual impact of the proposed buildings. In addition, all buildings are oriented to the street, thus relegating the on-site parking to the rear and mostly out of site to the neighborhood. The street-building-parking relationship has been proffered (Refer to Proffer # 7).

Section 10-3-55.6 (e) (4) requires the applicant to show that the site is environmentally suitable for multifamily development. With approximately seven acres, the property has sufficient area for the proposed buildings, travel ways and relegated parking areas. All stormwater quantity and quality requirements will be managed on site. There are no steep slopes to contend with while any impacts to the floodplain will be conducted in accordance with the City's requirements. In addition, the applicant plans to have all buildings certified under the National Green Building Standard (NGBS) for energy efficiency, water efficiency, resource efficiency, lot development, operation and maintenance, and indoor air quality.

Several existing conditions on the property present challenges for redevelopment of the site including overhead electric transmission lines and easements, proximity of the Chesapeake Western Railway, and the floodplain. These issues present substantial obstacles for development of small lot single-family detached homes and single-family attached homes but are addressed in the proposed multifamily concept plan.

As stated above, the residential development will consist of one, two, and three-bedroom units; some with lofts. The majority of units will be two-bedroom, two-bath units designed to attract younger professionals, empty nesters, and other renters by choice (see Proffer #9). Although all parking is provided on-site, the project sponsor is proffering a pad for a City-provided bus shelter (Proffer #8) and pedestrian connection to the proposed VDOT improvements at MLK Jr. Way for not only the benefit of future tenants, but also the existing neighborhoods (Proffer #2). An additional proffer includes the donation of land to incorporate a future vehicular connection between MLK Jr. Way and Blue Ridge Drive centered on funding obtained by the City (Proffers #4 and #5).

City staff at the Department of Public Works has determined that a Traffic Impact Analysis is not required. With 39 AM peak hour trips, and 59 PM Peak Hour trips, the anticipated traffic impacts are minimal, and well below the threshold of 100 Peak Hour Trips which would require further analysis. As typical with a city street grid pattern, residential traffic would be dispersed among three local streets, and would not be concentrated on any one street. In addition, the personal vehicular traffic would be substantially less intrusive to the existing neighborhood than the commercial trucks and tractor-trailers that are allowed under the existing use.

Prior to this submission, the Applicant, along with its consultants, held a virtual community meeting with the surrounding property owners on August 17, 2020. Invitations were mailed to 301 households. These invitations generated six participants who attended the presentation which consisted of an overview of the project complete with a preliminary site plan and numerous elevations of the proposed structures. The presentation seemed generally to be well received. The following questions were asked during or subsequent to the presentation with responses noted.

- 1. Can you consider opening the roadway on to E. Market and Market St and Martin Luther King Jr. way?
  - a. The future extension of Blue Ridge Drive to East Market Street is not part of this project, however it may be constructed by the City at a future date. The developer will consider a pedestrian connection to East Market Street as part of this project.
- 2. Is this area in a flood plain?
  - a. A portion of the property is in the floodplain, but development will be in accordance with City's requirements
- 3. What is the marketing plan? Student? Senior?
  - a. Target markets: younger professionals, empty nesters, and other renters by choice.
- 4. Concerned about runoff into the culvert
  - a. If developed, the project will be required to study the existing drainage condition and proposed improvements will be required to sufficiently carry water through the site. Per City of Harrisonburg Stormwater requirements, the developed site must at a minimum meet the pre-development condition, meaning that the project cannot make the flooding issue worse by backing water onto adjacent properties and/or road right of way.
- 5. Concerns regarding traffic, entrance/exits.
  - a. Design team will work with City regarding potential traffic impacts.

    Improvements to the intersection of Blue Ridge Drive and Country Club Road are proposed. A second driveway is proposed on Country Club Lane.

In summary, the development provides needed, high quality housing with street and pedestrian approvements to benefit the area and is consistent with the Comprehensive Plan.

Thank you for your assistance and cooperation. If you have any questions, please do not hesitate to contact me.

Sincerely.

William N. Park

#### **PROFFERS**

#### Two41 Central Apartments 241 Blue Ridge Drive, Harrisonburg, Virginia

Date of Proffer: November 4, 2020

Revision #1: November 30, 2020

Project Name: Two41 Central Apartments

Owners: MG Harrisonburg LLC

Martha Estes Grover, Trustee of the Charles Edwin Estes

Irrevocable Grandchildren's Trust

Contract Purchaser: Bluestone Land, L.L.C., or assigns

Tax Map	Current Owner	Acreage	Existing	Existing Land	Land Use Guide
Parcel #s			Zoning	Use	
028 G 1	MG Harrisonburg LLC	4.59	R-1	Industrial	Medium Density
					Mixed Residential
028 G 2	Grover Martha E Trustee	2.40	R-1	Vacant	Medium Density
					Mixed Residential

Total Acreage of Parcel(s) 6.99 +/- acres

Rezoning/Land Use Requested: R-5

Tax Map #(s) 028 G 1; 028 G 2

The Term "Owner" as referenced within this document shall include within its meaning the owner, or owners, of record of the Property, or properties, and their successors in interest.

In connection with the rezoning request for the above parcels, the following is proffered:

- 1. Occupancy Restrictions and Parking: Dwelling units may be occupied by a single family or no more than three (3) unrelated persons. A minimum of 1.5 parking spaces per dwelling unit shall be provided.
- 2. <u>Bicycle and Pedestrian Connection:</u> The owner will design and construct a 10-ft wide shared use path connection from the western terminus of Blue Ridge Drive to the western boundary of 919 Oakland Street (Tax Map Parcel # 028 F 1) as general shown on Exhibit A. In the event the City obtains necessary easement or right-of-way prior to final paving of the development, then the owner will also construct the shared use path connection to East Market Street. The final alignment of the connection will be determined and eventually agreed to at the site plan review stage of the project.
- 3. <u>Road and Sidewalk Improvements:</u> The following improvements will be constructed as part of this development:
  - a. Blue Ridge Drive shall be improved to include 2.5' curb and gutter, 6' planting strip, and 5' sidewalk along the project frontage. The face of the proposed curb shall be located 13' from the centerline of Blue Ridge Drive.
  - b. Country Club Road shall be improved to include 2.5' curb and gutter, 6' planting strip, 10' shared use path, and 2' path shoulder. The face of the proposed curb shall be located 6' from the existing edge of pavement.

#### **PROFFERS**

#### Two41 Central Apartments 241 Blue Ridge Drive, Harrisonburg, Virginia

- c. A 5' wide sidewalk with a 2' planting strip shall be installed along the project frontage of Country Club Court.
- 4. <u>Donation of Right-of-Way:</u> For the purpose of road improvements to the intersection of Blue Ridge Drive and Country Club Road, the Owners shall provide a right-of-way to the City across 028 G 1 and 028 G 2 as generally shown on the Concept Plan dated 11-25-20, attached as Exhibit A, within 90 days of the issuance of building permits.
- 5. <u>Donation of Additional Parcels</u>: For the purpose of future improvements to Blue Ridge Drive, MG Harrisonburg LLC has entered into a Development Agreement with the City of Harrisonburg regarding donation of Tax Map Parcels 028 F 1 and 028 F 2 to the City. Those parcels are not included in this Rezoning Application.
- 6. <u>Density and Unit Mix:</u> The development shall contain a maximum of 142 units. Units shall be limited to 1, 2, and 3 bedroom units, of which a minimum of 75% shall be 2 bedroom units or less.
- 7. <u>Parking Lot Placement-</u> Parking shall not be located between the proposed apartment buildings and Blue Ridge Drive or Country Club Road. This proffer does not apply to amenity structures, maintenance facilities, and/or other accessory structures.
- 8. <u>Bus Shelter-</u> The Owner will coordinate with the City to identify and provide a location for a bus shelter if requested during the site plan review phase of the project. Owner shall provide a concrete pad for City-provided shelter at a mutually agreeable location.
- 9. Playground-A playground will be provided within the development.
- 10. <u>Street Trees-</u> Street Trees will be provided along Blue Ridge Drive and Country Club Road frontages. Tree spacing will average 60 ft on center for medium or large maturing trees and 30 ft on center for small maturing trees. Location of street trees to be in the proposed planting strip <u>or</u> behind the sidewalk, depending on the location of above or below grade utilities.

#### DEVELOPMENT AGREEMENT

This Development Agreement is entered into by and between MG Harrisonburg LLC, its successors and assigns (Owner) and the City of Harrisonburg (City).

In connection with the rezoning application for Tax Map Parcels 028 G 1 and 028 G 2, the parties agree that at the request of the City of Harrisonburg and evidence that funding is in place, through means such as budgeted by the City or through the Virginia Department of Transportation's Six Year Improvement Program, to advertise for construction of a road connection from Martin Luther King, Jr. Way to Blue Ridge Drive within fifteen (15) years of the rezoning approval of Tax Map Parcels 028 G 1 and 028 G 2, the Owner shall donate and transfer title to Tax Map Parcels 028 F 1 and 028 F 2 to the City for purposes of road improvements.

This Development Agreement will commence on the date of City Council's approval of the rezoning of Tax Map Parcels 028 G 1 and 028 G 2 to the R-5, High Density Residential District and will end on the date that is fifteen years after.

#### Instructions

Determination of trip generation rates shall be in conformance with ITE guidelines.

- 1. Based on the intended use(s), calculate the AM Peak and PM Peak trip generation using the AM and PM Peak Hour of Adjacent Street Traffic rates from the most current version of the ITE Trip Generation Manual (rows 1-6). Attach additional sheets as necessary for more uses.
- 2. Sum up all of the trips generated for the new uses in the Total New Trips row (row 7).
- 3. If the development has any existing uses, calculate the AM Peak and PM Peak trip generations using the AM and PM Peak Hour of Adjacent Street Traffic rates from the most current version of the ITE Trip Generation Manual (rows 8-13). Attach additional sheets as necessary for more uses.
- 4. Sum up all of the trips generated for the existing uses in the Total Existing Trips row (row 14).
- 5. Subtract the total existing trips from the total new trips to get the final total number of trips generated by the development (row 15). Enter these numbers on the first page.

Revised Date: December 2019
