Chris Brown provided information on the CARES Act funding related to COVID-19, and the regulations associated with granting of these funds. He noted funds need to be spent by December 30, 2020 and city staff has created a spending plan for these funds, approved by City Council, and has allocated \$750,000 to the Business Recovery Grant program to be used for businesses of Harrisonburg. He stated the Economic Development department accepted applications for grant funds that met the criteria as follows:

- In business on or before January 1, 2020
- Must have between 1 - 100 full time employees or equivalent
- Must have \$25,000 - \$5M in annual revenue
- Must show a 5% loss in revenue contributed to COVID-19
- Must be a locally owned business, if it is a franchise only one franchise in the city could qualify if owned by same owner.

He stated this is to help local businesses, especially the smaller businesses in the city.

He reviewed the funding allowed based on how many employees a business has and how the funds can be used. He stated 79 grant applications were approved for a total of \$422,700 and the remaining funds allocated will be added to a second round of grants with different criteria.

Chris Pipkin asked if the criteria will be changed to include smaller businesses or larger businesses. Mr. Brian Shull, director of Economic Development for Harrisonburg stated the employee levels will remain the same but will open it up more

to home-based businesses and non-profit organizations. Mr. Brown stated there may be additional funds available in the second wave of CARES Act funding in which City Council has appointed a Task Force to review. Mr. Brown asked the members to review the list of applicants to make sure there were not conflicts of interest.
