### Subject:

Information regarding intention to update the Design and Construction Standards Manual, Chapter 3, Access Management and Entrances, Curb Cuts, and Intersections sections

Presented By: Thomas Hartman, PE, LEED AP, Director of Public Works

The Public Works Department is working to develop updated access management standards for new development to improve traffic safety and facilitate multimodal travel. This is an informational presentation only, intended to familiarize City Council with the concept of access management, and inform Council of Public Works' intention to present a new standard to Council for consideration to be adopted into the Design and Construction Standards Manual early next year.
