**Subject:**

Consider adopting a resolution amending the City's Solid Waste Management Plan and update  
Presented By: Thomas Hartman, PE, LEED AP, Director Public Works

The original solid waste plan was adopted by the City on July 23, 1991. That plan was updated and approved on October 24, 2006 and a 5-year update was approved on July 13, 2012. This current major amendment to the plan will be approved in accordance with the regulations. This plan update is considered a major amendment based on DEQ's definition of major amendment, where the City has moved from the utilization of a Materials Recovery Facility (MRF) at van der Linde operations to landfilling at the Rockingham County Landfill. Moving from a MRF back to landfilling constitutes a change that is lower in the waste management hierarchy. This plan update also includes minor amendments.
